### Undergraduate, Graduate Tuition to Rise

Undergraduate tuition and fees for 1979-80 will rise by 9.2 percent to \$5,270, and graduate tuition and fees will increase by 9.3 percent to \$5,545. Last year's figures were \$4,825 for undergraduates and \$5,075 for graduates. The increases reflect the escalating cost of education, according to the executive board of trustees, who approved the figures at an open stated session on March 8.

All part-time tuition and fee rates will increase proportionately from 1978-79, while the \$5,545 figure for graduate tuition will serve as a floor for all professional tuition and fees. Tuition increases for the Schools of Dental Medicine, Medicine and Veterinary Medicine will be announced before April 15. Vice-President for Budget and Finance Jon C. Strauss estimated the increases at about 10 percent.

While the University Budget Committee had recommended an increase of undergraduate tuition and fees to \$5,280, President Martin Meyerson and Provost Vartan Gregorian lowered the figure slightly. "The situation is a vexing one," Meyerson said. "We made every effort to keep the increase to a minimum in recognition of the burden on students and their families. There is no question that an institution such as ours is not attracting certain students who for financial reasons cannot afford to go to Pennsylvania." Meyerson noted that the University's 1979-80 tuition is "higher than some, lower than other" Ivy League institutions. Yale's undergraduate tuition will be the highest for 1979-80 at \$5,640, while Princeton's increase of 9.51 percent to \$5,585 represents the largest tuition jump.

In other business, Gregorian reported that he intends to form a new, smaller search committee for an athletic director. Gregorian

disbanded the original committee on February 23 as a result of "serious breaches of confidentiality." (See Almanac, February 27, 1979.) He stated that he hopes to complete the other searches in progress—for vice-provost of University life, vice-provost of research, associate provost and dean of the Faculty of Arts and Sciences—by April. At the provost's request, the trustees approved a departmental name change for the Department of Metallurgy and Materials Science in the College of Engineering and Applied Science to the Department of Materials Science and Engineering.

The trustees also authorized the University to make application to the Department of Housing and Urban Development for a loan of \$1,731,000 under the College Housing Program, in order to pay for renovations of the Quadrangle Dormitories. If approved, the loan would go towards replacing windows, installing a trash removal system and insulating the roof to reduce fuel consumption and operating costs.

Chairman Paul F. Miller, Jr., announced that he has assumed the chairmanship of the Program for the Eighties fund raising campaign. As of February 28, 1979 the campaign had received \$177,141,222, or 69 percent of its \$255 million goal, he reported.

The trustees approved the promotion of Matthew Hall from assistant general counsel to associate general counsel, and the appointment of Daniel Goldberg, director of legal services for the Hospital of the University of Pennsylvania, as assistant general counsel. The board announced the appointments of Sara Spedden Senior to the Board of Overseers of the Faculty of Arts and Sciences; Thomas Neil Crater to the Institute of Contemporary Art Board; Kenneth A. Roe to the College of Engineering and Applied Science Board of Overseers; Penrose Hallowell and Charles R. Ord to the School of Veterinary Medicine Board of Overseers; and Solomon Katz to the Trustee Board of HUP.

## News Briefs

### Thornburgh Proposes Appropriation Increase

Pennsylvania Governor Dick Thornburgh has proposed an increase in the University's state appropriation for 1979-1980 that would raise last year's \$18,115,000 grant to \$18,383,000. The \$268,000, or 1.5 percent increase represents a decrease when inflation is taken into account. It is also the lowest percentage increase proposed for state owned or state related colleges and universities, with state owned institutions averaging a seven percent increase and state related institutions upwards of four percent.

The appropriation is broken down into five categories:

	1978-79	1979-80	\$ increase	% increase
Instruction	7,063,000	7,287,000	224,000	3.2
Student Aid	3,798,000	3,798,000	0	0
Veterinary School	3,772,000	3,772,000	0	0
Medical School	2,882,000	2,926,000	44,000	1.5
(no increase in per capita \$)				
Dental Clinics	600,000	600,000	0	0
	\$18,115,000	\$18,383,000	\$268,000	1.5

Other state aided colleges and universities appear to have

received the same 3.2 percent increase in instruction as the University. The University Museum's proposed appropriation is \$100,000, the same as 1978-79.

Hearings before the appropriations committees of the General Assembly will probably take place in April.

### University Council Reschedules Meetings

The University Council spring meeting schedule has been revised: the meetings scheduled for Wednesday, March 14, April 11 and May 9 are now set for Wednesday, March 21, Monday, April 9 and Wednesday, May 2, 3-5 p.m., Council Room of the Furness Building.

The agenda for the March 21 meeting includes discussion and action on the report of the Committee to Review University Council (see Almanac, February 27, 1979 for the full text of the report) and a report from the administration on undergraduate class size.

### Gregorian to Speak at A-3 Assembly Meeting

Provost Vartan Gregorian will address the A-3 Assembly, Tuesday April 3, noon to 1 p.m. in the Franklin Room of Houston Hall. Gerald Robinson, executive director of personnel, and Jon C. Strauss, vice-president for budget and finance, will also speak. Topics under discussion include equalization of benefits, training personnel for upward mobility and University guidelines on salary increases.

## Tribute to Visconti Planned

The Philadelphia preview of Luchino Visconti's final film, *The Innocent*, will be presented Tuesday, March 20, 8 p.m., at the Zellerbach Theater as part of a three-day tribute to the Italian film director. The event, sponsored by the Annenberg School of Communications and the University's Center for Italian Studies, features screenings of four of his earlier works: *Ossessione* plays on March 21 at 7 p.m., *La Terra Trema* on March 21 at 9:30 p.m., *Senso* on March 22 at 7 p.m. and *Sandra* on March 22 at 9:30 p.m. Admission for *The Innocent* is \$3, or \$2.50 for students; other films in the series are \$2.50, or \$2 for students.

## Nominations Invited for W.E.B. DuBois Master

Nominations and applications for the position of faculty master of the W.E.B. DuBois House are being accepted by Professor Howard Arnold, School of Social Work, 3701 Locust Walk/C3, Ext. 5504. The appointment begins July 1, 1979.

### OMB Revises Research Cost Principles

New cost principles for federally financed research at educational institutions will go into effect on October 1, 1979. Issued on March 6 by the U.S. Office of Management and Budget, the revised regulations (OMB Circular A-21) will affect the way universities calculate the direct costs—primarily salaries and materials—and indirect costs—for example, building space, utilities, central administrative costs—of carrying on research projects.

The revisions first proposed last March stirred controversy throughout the nation's universities. President Martin Meyerson estimated at a Council meeting last spring that those revisions could cost the University approximately \$4.75 million a year in unrecovered indirect costs and added administrative costs. OMB reported receiving more than 300 letters of comment, and the rules that go into effect next fall reflect the government's response to the furor: *The Chronicle of Higher Education* reports that the new procedures could cost a major research center more than \$1 million a year—far less than first feared.

Finances and bookkeeping procedures will bear the brunt of the initial impact, campus officials say, but it is premature to assess the full consequences. The National Association of College and University Business Officers is in the process of preparing an analysis of the regulations; according to Director of Research Administration Anthony Merritt, the organization will sponsor a seminar for business administrators at Penn next month. A lengthier look at the OMB regulations and their impact on the University will appear in a forthcoming issue of *Almanac*.

## Openings

*The following listings are condensed from the personnel office's bulletin of March 15, 1979. Dates in parentheses refer to the Almanac issue in which a complete job description appeared. Bulletin boards at 13 campus locations list full descriptions. Those interested should call personnel services, Ext. 7285. The University of Pennsylvania is an equal opportunity employer. Where qualifications include formal education or training, significant experience in the field may be substituted. The two figures in salary listings show minimum starting salary and maximum starting salary (midpoint). An asterisk (\*) before a job title indicates that the department is considering promoting from within.*
