To the Penn Community:

In the Wake of the Commonwealth Budget Blow

Governor Robert Casey recently signed a budget for FY'93 that did not include an appropriation for Penn. This is very disappointing news, particularly after many people worked so hard to demonstrate to our leaders in Harrisburg the importance of Penn's educational and economic impact on the state and of maintaining support for the University.

It appears that nobody in Harrisburg is happy with the budget, which will require major modifications in the fall. We will continue to make our case forcefully to our friends in the legislature, and hope that funds to Penn will be restored.

However, we must proceed on the assumption that we will not regain our funding. Indeed, we had already made that assumption when the Governor first announced his proposal to eliminate our \$37.6 million appropriation earlier this year. As you recall, the University's FY'93 budget, which was approved by the Trustees in June, was developed in anticipation of this loss.

Clearly, a reduction of this magnitude is going to carry on as normal. No University can sustain such a loss without hardship. However, in developing our plan, which we outlined to you in a series of presentations in April, we were careful to have a significant impact on our ability to balance the immediate needs of the University community with our responsibility to protect the future of Penn. Above all, we remain committed to protecting our academic core and Penn's most important resource—our faculty, staff, and students. We have begun to implement our plan, which includes the following measures:

- Begin immediately to eliminate 600 positions. This will be achieved through a combination of attrition, reassignment, retirement, and selected layoffs. We will make every effort to remove as many positions as possible through attrition, and turn to layoffs only as a last resort.
- Postpone some \$94 million worth of construction and renovation projects, including the Revlon Center and a parking garage and new chiller plant at 38th and Walnut Streets.

The future of the School of Veterinary Medicine, whose state appropriation represented more than 40 percent of its operating budget, is uncertain. While the Trustees allowed the University to budget a deficit that would carry the School through the current year, without Commonwealth funds the University cannot continue to subsidize the School at that level. In the interim, the School has taken several measures to reduce the size of its deficit, including a hiring freeze, curtailment of all construction, and reduction in general expenses to FY'91 levels.

The actions outlined above are not pleasant and will cause pain. Without our state funds, we will be forced to be a different Penn. We will have fewer resources to share, and will have to make some difficult choices. Nevertheless, within these narrower limits the University must find ways to sustain our long tradition of service to the community.

We must be prepared to move ahead, no matter how difficult the task. But no plan, however carefully crafted, can succeed without the support and commitment of all members of the Penn community. We call upon each one of you to work with us to insure that Penn continues to flourish now and in the years ahead.

Trustees: A Deficit Budget

At the June 19 full board meeting, Penn's Trustees voted a deficit budget for FY1993, preparing to absorb next year's support of the Vet School if Commonwealth funds were cut off—as they were in the budget passed by the General Assembly June 29 and signed by Governor Casey June 30.

The operating budget, published in an eight-page insert to this issue, outlines steps triggered by the loss. That insert also details technical deficits created by changes in the Medical Center budget, partly reflecting conversions of HUP and CPUP budgets to university accounting principles (in which capital additions and renovations, and retirement of long-term debt, are treated as reductions to fund balance) and partly from transfer of HUP/CPUP accumulated surpluses to capital projects such as construction of Biomedical Research Building I.

Harrisburg: The FY1993 state budget contained modest remnants of state aid Cancer Center's \$483,000, plus two items not immediately signed—for Cardiovascular Studies at \$132,000, and the University Museum at \$183,000). Vetoed by the Governor were \$386,000 for Morris Arboretum and the state-wide educational equipment fund of \$3,860,000 in which Penn had shared last year by \$425,000.

Several legislators have put aid to private institutions on a list of "unfinished business" to be taken up after the Assembly reconvenes September 21, according to James Shada of Commonwealth Relations. An important factor, reportedly, is that funds to Penn and similar institutions were not entered and eliminated, but simply were not in the budget forwarded for signature.

Vet School: Since the news came, Dean Edwin Andrews of the Vet School has met with the faculty and staff of both the Philadelphia and New Bolton Center campuses, briefing them on details of the funding crisis and asking their continued support as solutions are sought.

Ira Harkavy

Center for Community Partnerships: Ira Harkavy

Dr. Ira Harkavy, vice dean of the School of Arts and Sciences and director of the nationally-recognized WEPIIC (West Philadelphia Improvement Corps), has been chosen to head a new Center for Community Partnerships at Penn.

The new center was proposed by President Sheldon Hackney during Penn's 250th Anniversary as "a permanent anchor for University-based research and service."

As the Center's head, Dr. Harkavy will coordinate programs that link some 4000 Penn faculty, staff and students in Philadelphia community efforts. The University currently supports over 150 programs with and for the local community, ranging from tutoring children to advising small businesses and from programs on hunger and homelessness to "greening" projects.

Dr. Harkavy will create and maintain an inventory of all campus public service programs; oversee the match-

ing of volunteer interests with community needs; maintain relations with appropriate community, state and federal agencies; and take primary responsibility for fund-raising to support the Center and establish an endowment for public service.

When a new community relations director is named, that director will report to Dr. Harkavy. The post formerly held by Cheryl Hopkins now has an acting director, Steve Carey.

Dr. Harkavy graduated from Penn in 1970, cum laude with distinction in history, and took his Ph.D. here in history in 1979. Since 1984 he has taught in history and urban studies, and served as director of the Penn Program for Public Service and as executive director of the Program for Assessing and Revitalizing the Social Sciences (PARSS).

(continued next page)

"I can't think of a better choice to head this Center," said SAS Dean Rosemary Stevens. "Ira Harkavy is nationally recognized for his work linking academia and the community and maximizing the benefits to both." The premise of this linkage was central to Dr. Hackney's opening address for the 250th, where he cited three basic components of a university's mission: education, research and service. "Nothing could be more traditional at Penn than civic action. We have long been guided by the words of our founder, Benjamin Franklin, who wrote that 'the great aim and end of all education' should be to enable one to serve humanity."

Penn VIPS: Among other programs, the new Center fosters the Penn VIPS project in which Penn employees and alumni tutor, counsel, conduct classes ranging from computers to dance, or just help out in local schools, usually on Saturdays for 3 hours or more per month. For a sign-up form to become a Penn VIP, call Bonnie Ragsdale at Ext. 8-2020.

Multicultural Experiences at Penn

The Office of Student Life Programs is asking faculty and staff to be facilitators for the fall 1992 New Student Orientation Program called "Multicultural Experiences at Penn" to be held on September 7 from 11 a.m. to 5 p.m.

All facilitators will be expected to participate in a half day orientation workshop and co-facilitate a small group discussion with first year students on the day of the program. Orientation workshops have been scheduled for August 24, September 3, and September 6.

Program registration forms are available in the Office of Student Life Programs. The deadline for registration is July 31. For more information, please call Terri White at Ext. 8-7645.

FROM THE PRESIDENT

To the University Community: Regarding a Plagiarism Case

Regretfully, I am informing the Penn community that after a very lengthy process, involving the first use at this University of a Group for Complaint (comprised of faculty members chosen by the faculty of a school to bring a complaint), a chaired professor in the School of Veterinary Medicine has been found to have committed plagiarism. Following our Just Cause Procedure (*Handbook for Faculty and Academic Administrators 1989*, as revised), the Committee on Academic Freedom and Responsibility of the School of Veterinary Medicine has recommended to the Trustees that the professor be removed from the endowed chair, that he be demoted in rank from professor to associate professor, that he not hold any administrative position in the School in the future, and that a notice be placed in the journal where the plagiarized paper was published stating the correct attribution of authorship.

In deference to faculty self-governance, the Trustees have accepted these recommendations from the Committee on Academic Freedom and Responsibility of the School of Veterinary Medicine, and they have been put into effect. The Trustees would have preferred a more severe penalty since they feel that plagiarism strikes at the heart of ethical faculty behavior and the values of the University.

— Sheldon Hackney

To Congress: On the Armed Forces and Sexual Preference

The following was sent to Pennsylvania Legislators in Washington on June 5.

On behalf of the University of Pennsylvania community, I want to register my strongest support for HR 5208, legislation that would prohibit discrimination by the armed forces on the basis of sexual orientation.

This legislative initiative is necessary if the current policy of the Defense Department that excludes gays and lesbians from serving in the military is to change. For more than two years, the Pentagon has had the benefit of an extensive report that it commissioned and that challenges its directive that claims homosexuality to be incompatible with military service. Earlier this year, I and several of my colleagues who lead colleges and universities throughout the nation met with the Assistant Secretary for Force Management and Personnel to urge him to reconsider the Department's policy, but it would appear that these and other efforts at exhortation have not been sufficiently persuasive. This legislative signal that the Department's policy is unsupportable will, I hope, provide the necessary leverage for change.

I hope that you will lend your support to this important legislation.

— Sheldon Hackney

Speaking Out

Encourage Bikes

I was dismayed to read in the 14 April issue of *Almanac* of the decision by the University Council to urge that once an adequate number of bicycle racks are provided on campus, all bicycle riding be prohibited on Locust Walk, Hamilton Walk, Smith Walk and all cross walks leading to these walkways.

This is a decision whose wisdom must be seriously questioned. We are living at a time when bicycle riding, and especially bicycle commuting, should be strenuously encouraged, not discouraged by short-sighted rules limiting bicycle use on campus. This is a time when the United States spews into the atmosphere 25% of the world's carbon dioxide emissions, much of it from automobile exhausts, yet this is also a time when most American automobile commuters ride alone on their way to work.

It is clear that many University of Pennsylvania faculty, staff and students could easily leave their cars at home and commute by bicycle through a city that is particularly flat and with virtually no steep hills. One of the advantages to commuting by bicycle is to have the machine available for quick and easy access to all parts of the

campus. Banning the use of bicycles on the major walkways of the campus takes this away, and subtly discourages bicycle use.

The passage of the recent Federal Highway bill with its small, but nevertheless significant funds for bicycle and pedestrian routes demonstrates that the potential importance of the bicycle in helping reduce air pollution and road congestion has finally been recognized in Washington. It is equally obvious that the University of Pennsylvania, as an institution in the forefront of environmental concerns, as evidenced in its commendable recycling efforts, must also play an active role in shifting emphasis away from automobile use.

What is required is not the prohibition of bicycles on the major walkways, but rather the establishment of a series of rules and regulations governing the use of bicycles on campus. Perhaps a clearly marked, narrow bicycle lane on one side of the walkways is the appropriate solution to the problem. However, what is essential is an educational campaign directed toward bicycle riders to inform them of these rules, as well as rigorous enforcement of the regulations. Tickets, with monetary

finest, can and should be given to those who are affiliated with the university who break the rules, while cyclists who are not members of the university community, and who disobey the regulations, should be escorted off campus. Those University Police who are currently patrolling the campus on bicycles are the ideal group to be charged with enforcing bicycle use regulations.

I realize that this proposal burdens the University Police with an additional responsibility, and that it may initially be difficult for them to successfully monitor bicycle use. However, as a bicycle commuter of more than ten years, I believe that much of the perceived danger to pedestrians from bicyclists, which is the basis for the call to prohibit bicycles on the walkways, can be eliminated by the enforcement of bicycle use regulations.

Examined from the perspective of its broader implications, the present plan to ban bicycles from the walkways is simply not a reasonable solution to the problems of mixing bicycles and pedestrians on the same paths.

— Alan Mann,
Professor of Anthropology

DEATHS

Dr. Reavis Cox, an internationally recognized economist who was the first Sebastian S. Kresge Professor of Marketing at Penn, died on July 4 at his home in Haverford at the age of 91.

A graduate of the University of Texas, Reavis Cox began his career in 1921 as a reporter for the United Press. Later as market editor of the *Journal of Commerce* he gravitated toward scholarship, taking a Ph.D. in economics at Columbia in 1932.

Dr. Cox taught at the Wharton School from 1935 until his retirement in 1971, when he became visiting professor of marketing at the University of Sherbrook in Quebec and then visiting professor of distribution studies at the University of Manchester in England.

During his long career Dr. Cox became known as one of the first economists to expound the theory of marketing as a distinct aspect of economics. Finding new methods to study the flow of goods from source to consumer, he studied also the efficiency, cost and value added at each stage of the American distribution process, and the economic implications of consumer credit.

While publishing 11 books and more than 50 articles, he also chaired his department, headed the then-new Faculty Senate (as its second chair, 1953-54) and edited the *American Marketing Journal* and the *Journal of Marketing*.

He was in the military briefly during World War I, and during World War II he served on the staff of the War Production Board as a key consultant on management of the wartime economy.

Dr. Cox is survived by his wife, the former Rachel Dunaway, a fellow academic who chaired a department at Bryn Mawr; a daughter, Rosemary Masters; a son, David; and five grandchildren. The family requested contributions to the Hunger Fund of the Swarthmore Presbyterian Church, 1727 Harvard Ave., Swarthmore, PA 19081.

OSHA- Mandated Training

A *Chemical Hygiene Program* will be presented July 27 and a seminar, *Occupational Exposure to Bloodborne Pathogens*, will be presented July 29. Both are mandated by the Occupational Health and Safety Administration (OSHA), and will be presented by the Office of Environmental Health and Safety in the Medical School. They will be held in the J. Morgan Building, Lecture Room B, 10:30-11:30 a.m.

The Chemical Hygiene Training will review the new OSHA regulations, *Exposures to Hazardous Substances in the Laboratory*, as well as Penn's written safety program. General laboratory safety training will also be provided.

The other seminar is designed to help protect personnel from occupational exposure to bloodborne pathogens such as the Hepatitis B Virus and the Human Immunodeficiency Virus. Information pertaining to the safe handling of infectious agents will be presented.

Information regarding *free Hepatitis B vaccination* for all personnel (faculty, research technicians, research specialists, research assistants, support staff) will be available. Attendees are requested to bring their Penn ID cards. Please call Barbara at Ext. 8-4453 to register, or if you have any questions.

— Barbara Moran, Training Specialist, Environmental Health and Safety Office

Remembering Zellig Harris

In memory of Dr. Harris, who died on May 22 at the age of 82, Dr. Henry Hoeningwald provided most of the following information on the career of the world-renowned mathematical linguist:

Zellig S. Harris began teaching at the University of Pennsylvania in 1931, and became full professor in 1947. He was a Benjamin Franklin Professor and University Professor from 1966 until 1980, when he became professor emeritus here and Senior Research Scientist at the Center for Social Sciences at Columbia University.

Beginning his scholarly career at Penn in Oriental Studies with ties to Anthropology, Dr. Harris founded (under Anthropology's aegis) the Penn department of linguistic analysis which became the nation's first linguistics department.

Among the many books he published are *Structural Linguistics* (1951), *String Analysis of Science Structure* (1962), *Discourse Analysis Reprints* (1963), *Mathematical Structure of Language* (1968), *Papers in Structural and Transformational Linguistics* (1970), *Notes du cours de syntaxe* (1978), *Language and Information* (1988), *The Form of Information Science* (co-author, 1988), and *A Theory of Language and*

Information: A Mathematical Approach (1991). In 1986 he delivered the Bampton Lectures in America at Columbia University.

Professor Harris was a member of the American Philosophical Society, of the National Academy of Sciences (applied physical and mathematical sciences section) and the American Academy of Arts and Sciences. He was a corresponding Fellow of the British Academy, president of the Linguistics Society of America, and editor of the *Journal of the American Oriental Society*.

In the preface to Harris's book, *The Form of Information in Science*, the noted philosophy professor Hilary Putnam of Harvard wrote, "What 'Linguistics' was like before Zellig Harris is something not many people care to remember today....All of Harris's ideas were different from those that were being studied elsewhere: the idea of a transformation...the idea of the autonomy of syntax, and the condensed mathematical notation which made it possible to represent a grammar in a few pages of what looked like equations. ...Indeed, the major part of Harris's long and incredibly productive scholarly life has been devoted to the development of tools for the responsible study of the structures that characterize different types of discourse."

HUMAN RESOURCES

On Pre-Tax Expense Accounts for Plan Year Ending June 30, 1992

A reminder to all Pre-Tax Expense Account participants: You have until September 30, 1992 to submit expenses incurred and paid for during the 1991-1992 plan year (July 1, 1991 through June 30, 1992). Any money left in your account after September 30, 1992 will be forfeited. For more information on eligible expenses, refer to your Pennflex booklet. Please direct questions to Chris Brady in the Benefits Office, Ext. 8-7281. — A.R.

OF RECORD

Tax Deferred Annuity Plan (TDA)...Supplemental Retirement Accounts (SRA)

Effective July 1, 1992 the CREF Global Equities Account will be added to the investment choices for these plans. If you are already a CREF participant and want to add this fund call TIAA-CREF at 1-800-842-2733. If you are not currently participating in CREF, you must enroll in CREF through the Benefits Office (call your counselor at Ext. 8-7281) in order to participate in this fund.

Regarding the Supplemental Retirement Accounts

As previously related in a paycheck message: Effective March 2, 1992 a loan feature was added to the TIAA-CREF Supplemental Retirement Annuity Plan (TIAA-CREF SRA). This loan feature applies to a new product, the TIAA-CREF Group SRA. To use this feature, faculty and staff enroll in "Group TIAA-CREF SRA's" and use their accumulations in their TIAA Group Supplemental Retirement Accounts as collateral for loans. If you are currently enrolled in TIAA-CREF SRA's and want to use this new feature: call the TIAA-CREF Participant Information Center at 1-800-842-2776 to request the loan application and group SRA materials. If you are not a current TIAA-CREF SRA participant and want to use the feature: you must first enroll in TIAA-CREF Group SRA's by contacting the Benefits Office at Ext. 8-7281. Accumulations in Vanguard and Calvert Supplemental Retirement Accounts (SRA's) may be transferred to TIAA-CREF SRA's.

— Adrienne Riley, Assistant Vice President, Human Resources

Families for Genetic Study of Overweight

The Penn Behavioral Genetics Program is recruiting people with any one of their family members who are 50 lbs. overweight or more. For more information and a brief phone interview, please call Betsy Bradley at 573-3309. Families selected to participate will be paid.

Stay in well-lit areas. Keep doors locked, even if you are away for only a few minutes. Stay near people. Avoid shortcuts through parks, vacant lots and other deserted places. While in class, the lab, or library, keep personal belongings in view. Use the PennBus or Escort Service if you must travel after dark. Call 898-RIDE.

SAFETY—EVERYONE'S RIGHT...
EVERYONE'S RESPONSIBILITY

Report and Findings of Fact Concerning Phi Kappa Alpha *June 5, 1992*

To The University Community:

On the evening of May 13, 1992, the Fraternity/Sorority Advisory Board met to hear the charges filed against the Pi Kappa Alpha, Beta Pi Chapter at the University of Pennsylvania. The Board issued fifteen Findings of Fact (Attachment A to this letter) upon which it based its recommendations to me.

As a result of these Findings of Fact, the Board determined that there was reasonable cause to find the Chapter collectively responsible for violating University of Pennsylvania policies, regulations, statements and codes, including the Policy on Recognition and Governance of Undergraduate Social Fraternities and Sororities, the University's Antihazing Regulations, the University's Code of Conduct and the University's statement on drug abuse. The pertinent sections of the policies and codes the Board found the Fraternity to have violated appear as Attachment B to this letter.

The Board did not find the Chapter collectively responsible for the attempted theft identified in Finding of Fact 8. In this instance, the Board felt the pledges were not acting as part of an organized effort of the fraternity, nor was the activity supported or condoned as a pledging activity. The Board noted the disciplinary action taken by the chapter in the suspension of the three pledges as well as the removal from office of the responsible pledge officers.

In addition to the violations it found, the Board also found the Chapter to have violated the terms of the Settlement Agreement of April 25, 1990 entered into between the Pi Kappa Alpha National Fraternity, its local alumni Advisory Board and the University of Pennsylvania. By the terms of the Settlement Agreement, Pi Kappa Alpha was placed on probation "for a minimum of three years." The Agreement further provided,

During the term of this probation, any further violation, as determined by the Director of the Office of Fraternity and Sorority Affairs or the Fraternity/Sorority Advisory Board, of the University of Pennsylvania's Codes of Conduct, and/or The Recognition and Governance Policy for Fraternities and Sororities (1981), and/or non-compliance with the terms of this probationary agreement will result in an immediate suspension of the Chapter for a period of no less than two years. Suspension shall include but not be limited to an immediate loss of housing privileges.

Based on the Board's findings and in accordance with the provision of the April 1990 Settlement Agreement, I have made the following decisions:

1. Pi Kappa Alpha, Beta Pi Chapter shall be suspended for a period of two years, commencing immediately.
2. No member of Pi Kappa Alpha will be permitted to reside in or to use the Chapter house during the period of this suspension.
3. The Beta Pi Chapter of Pi Kappa Alpha shall not engage in any activities for a period effective immediately until September 1, 1993.
4. All members of the Chapter will be placed

on early alumni status. Those individuals who wish in the future to continue active participation with the undergraduate chapter must petition the Pi Kappa Alpha Alumni Receivership Board for reinstatement during the Spring of 1993. Individuals who remain on early alumni status may not participate in future chapter activities, or use chapter facilities during their tenure as undergraduates. The Chapter and Alumni must present a plan of action as to how they will implement and enforce this process.

5. Beginning September 1, 1993, reinstated members of the Chapter may begin to meet for purposes of preparing an application for renewed probationary status. A minimum of one alumnus must be present at each of these meetings. During this period, the Chapter may participate in philanthropy or community service with the express approval of the Director of the Office of Fraternity and Sorority Affairs, obtained in advance of each event.

6. The Chapter may submit an application to the FSAB petitioning for reinstatement of probationary status no sooner than November 1, 1993. Upon review of this application, the FSAB may recommend the granting of probationary status by the Vice Provost, to become effective no sooner than September 1, 1994. Such recommendation is contingent upon completion of the following conditions:

a. The Chapter must provide documentation that it is in compliance with all of the requirements of recognition as outlined in the Policy on Recognition and Governance of Undergraduate Social Fraternities and Sororities.

b. The Chapter is to develop a pledge program which is consistent with its National guidelines. This program is not to exceed eight (8) weeks in length. The program will commence on the day bids are signed. The content of the program is to include the history of the National Fraternity, scholastic programs, and educational programs which will aid in the development of these undergraduate men. This plan is to be approved by the National Fraternity, the Alumni Corporation, and the Office of Fraternity and Sorority Affairs.

c. The Chapter is to develop an officer training program with the assistance of the National Fraternity, the Alumni Receivership Board and OFSA. This training is to include, but not be limited to, leadership transition, leadership training, management, communication, group dynamics, and accountability. Plans must be made to ensure this programming is ongoing.

d. The Chapter is to locate several facilities specializing in the treatment of substance abuse. The Chapter must make arrangements for each member to volunteer at least ten (10) hours of service at one of these facilities during the first semester the Chapter is on probation.

e. The Chapter and the Alumni board must draft a letter to all Chapter alumni. This letter is to explain the new standards and expectations for all members and alumni. At the conclusion of the suspension, this letter will be sent out.

f. The Chapter is to locate a Chapter Advisor and a Pledge Educator Advisor from the Philadelphia area. Current members of the House Corporation may not serve dual roles. The purpose of these advisors is to provide constant on-site communication and follow-up to programs and activities. Written responsibilities should be established to aid and guide these individuals in their relationship with the undergraduate chapter.

7. Upon reinstatement to probationary status, the Chapter is to implement all of the plans and programs stated above.

8. The Chapter's first rush, which can take place no earlier than spring, 1994, will be conducted under the supervision of representatives from the National Fraternity and the local Alumni Board. The pledge program may only last four (4) weeks and must be conducted within appropriate University facilities under the supervision of the National Fraternity and the local Alumni board. The program must be reviewed and approved by OFSA.

9. The probationary period shall be a minimum of one year. The Chapter may petition the FSAB for full recognition status after this period of time. The FSAB, upon review of the petition, and finding the chapter to be in compliance with the terms of this decision, may recommend to the VPUL that the Chapter be granted this status.

In its recommendations to me, the Fraternity/Sorority Advisory Board noted that it was impressed by the efforts of this chapter and its alumni to develop internal self governance procedures and that it wished such efforts to be recognized. These and other signs of growth were taken into consideration by the Board in its deliberations.

I should note too that the Board would have preferred a shorter period of suspension in order for the chapter not to lose its positive momentum. Had this been a first violation for the Fraternity, I would have agreed with the Board. However, the terms of the existing Settlement Agreement are clear and binding and were agreed to freely by the Fraternity, its local alumni Board, and the University. I believe the weight of such agreements should be respected by all parties. However, in light of the Board's belief that the chapter has demonstrated strong positive efforts and improvement, I have tried to structure opportunities in the course of this suspension to allow the chapter to strengthen its positive aspects as it prepares for future probationary recognition.

I sincerely hope that the actions taken in this case will communicate the seriousness of disregarding responsibilities and commitments. The University, through the Office of Fraternity and Sorority Affairs, will continue to support the alumni and reinstated chapter officers in their efforts to restructure the chapter as an effective unified fraternal self-governing body.

— Kim M. Morrisson, Vice Provost
for University Life

**Findings of Fact: Appendix A, past insert
Codes Violated: Appendix B, past insert**

Attachment A: Findings of Fact Submitted by the Fraternity/Sorority Advisory Board

1. During the period between January 30, 1992 and February 2, 1992, three separate trips off campus were scheduled by the chapter, in which pledges were formally invited to participate. One of these trips involved the participants visiting two other Pi Kappa Alpha chapters.

2. The President of the Penn Chapter arranged the trips by contacting the other chapters to advise them that pledges from the Chapter would be arriving during that weekend. These chapters included the University of Massachusetts, the University of Ohio, the University of North Carolina, and Duke University. Other officers within the Penn Chapter assigned those pledges who accepted the trip invitation to travel to a specified school(s).

3. The Chapter did not obtain the express approval of the Chapter Advisor, nor did they notify the Director of OFSA that they had not received this approval, nor did they obtain the sanction of a National Officer of the Fraternity. The Chapter failed to provide adequate funds, transportation and supervision for the pledges travelling on the trips. Additionally, the pledges travelled without the company of Chapter members or advisors.

4. Pledges who had agreed to travel were expected to begin their travel in the early hours of Friday January 31, 1992.

5. The Chapter failed to communicate to the pledges travelling on the trips a clear purpose for the travel. According to the investigation, the pledges felt that they should "just have a good time." One pledge educator told the pledges not to steal anything during the trip. The chapter officers stated, however, that the purpose of the trip was to (a) make the pledge class closer, (b) break

up cliques, (c) gain a National perspective of the Fraternity.

6. The pledges assigned to travel to the University of Massachusetts ("UMass") were left to obtain their own transportation. One pledge did this by travelling back and forth from another pledge's dormitory room to various car rental places, including the Philadelphia Airport. This activity occurred throughout the early morning hours of Friday, January 31. The pledge returned at 7:30 A.M. with a van rented on his personal credit card.

7. Upon the pledges' arrival at the UMass Chapter, they found that no adequate arrangements had been made to receive them. The chapter stated that the UMass Chapter had no specific responsibility to assist the pledges.

8. On Sunday, February 2, 1992, the pledges on the UMass trip discussed and agreed to pull their van off the road near a road sign for The Massachusetts [Turn]Pike so that some of the pledges could remove and take the sign. Two pledges left the van with a pair of hedge clippers and were in the process of prying off the sign from its post when several Belchertown, MA police cars arrived. These pledges, and a third, who was driving the van, were placed in handcuffs while police searched the occupants, the luggage and the van.

9. In the course of the search, police confiscated the following from the van: a pipe, a wooden box and a bottle of vodka. All persons in the van were under the age of 21.

10. In the course of examining the wallet of one of the pledges at the police station, police discovered a fake Penn identification card, which

included a birthdate giving the cardholder an age greater than 21 years.

11. As a result of the stop and search, the Belchertown Police proffered charges against the three pledges, which included attempted larceny, possession by minors of alcohol, transportation of open alcohol, and alleged possession of drug paraphernalia.

12. The Chapter President stated that there are street signs hanging in the party room of the Chapter house.

13. On the evening of Sunday, March 22, 1992, the entire current pledge class of 23 men and three members, including officers, were required to attend a formal pledge meeting in the Quad. At approximately 12:30 AM, this group was intercepted by residential advisors in the residential facility. They advised them that they were not permitted in the area and were told to leave immediately. At this time, one Chapter member apologized; another stated he was from another fraternity.

14. On Sunday, March 28, 1992, following initiation, some new and old members engaged in behavior which included covering each other with paint. They had been explicitly told not to do this by the Director of OFSA, following a similar event the year before.

15. In mid-January, the President of the Chapter became aware that members of the pledge class were engaging in frequent use of marijuana. This information was discussed by the executive committee and addressed by its representatives to the pledges. No action was taken with regard to individual pledges who had been identified with these activities.

Attachment B: Pertinent Sections of Codes and Policies which the Board Found the Fraternity to Have Violated

I. The Chapter has violated the Policy on Recognition and Governance of Undergraduate Social Fraternities and Sororities ("Recognition Policy") by knowingly engaging in, permitting, or encouraging behavior inconsistent with the terms of this Policy, which provides, in pertinent part:

IV. Obligations

A. Obligations of the Fraternity to the University

By undertaking the process of recognition, the fraternity... assumes certain obligations and responsibilities to the University Community.

* * *

2. To accept collective responsibility for the activities of the individual members of the undergraduate chapter as they relate to the following:

b. Conduct of members and conduct of guests of members which is knowingly tolerated by members of the fraternity and is in violation of the University's Code of (General) Conduct;

7. To abide by all appropriate rules/regulations of the University.

II. The University's Antihazing Regulations, one of the University regulations referred to

in Section IV.A.7. of the Recognition Policy, provides, in relevant part:

I. Hazing Defined

C. There are time and place limitations on all fraternity... pledging activities. For purposes of this section, pledging activity [is] that [which] is unique to a pledge and performed as a requirement of membership in a fraternity.

1. There shall be no pledging activities between midnight and 8:00 AM Sunday through Thursday. This rule will be strictly enforced. (See Findings of Fact 13)

2. Pledging activities shall not occupy more than ten hours a week, excluding study hours and community service. (See Findings of Fact 1-12)

4. ...The residence halls, in particular, are off limits to the pledging activities of Organizations. (See Findings of Fact 13)

5. With one exception, pledges may not be sent on road trips. Pledges may voluntarily visit other chapters of a fraternity with the express approval of the Chapter Advisor. The Director [of OFSA]... shall be notified of the prior approval in writing. Approval should be granted only when the trip has been officially sanctioned by a national officer of the fraternity, when adequate funds, transporta-

tion and supervision are provided, and when the purpose of the trip is of a constructive nature. (See Findings of Fact 1-12.)

III. The Code of [General] Conduct referred to in Sections IV.2.b., above, states:

All students of the University must conduct themselves at all times in a mature and responsible manner. The rights and property of all persons are to be respected regardless of time or place. Failure to comply with University, city, state, or federal laws and regulations can result in appropriate disciplinary action. Students also are expected to adhere to standards of conduct established by divisions and departments of the University.

IV. Among the University regulations referred to above is the statement on drug abuse, which states in pertinent part:

The use of narcotics and dangerous drugs on University premises, as elsewhere is clearly illegal... University staff members are concerned about the possible physical, emotional, and psychological effects of drug use on the individual user, and about the impact that such use has on other members of the University community. (See Findings of Fact 15.)

UMIS Chargeback Rates for Fiscal Year 1992-93

The UMIS Chargeback rates for fiscal year 1992-93 are as follows:

UMIS FY 1992-93 Rate Schedule

Resource Category	Unit of Measure	FY 91-92 Rates	FY 92-93 Rates
Processor/ CPU	Minute	\$6.38478	\$5.37372 *
Disk Storage	Track Week	\$0.00222	\$0.00574
Communications			
TP Connect (TSO Only)	Minute	\$0.00037	\$0.00022 *
7171 Protocol (Asynchronous Connections)	Minute	\$0.01457	\$0.01384 *
Terminal Cntl Bytes (CICS Only)	64K Count	\$0.00232	\$0.00132 *
Impact Printing	Page	\$0.01847	\$0.01690

* Shift discounts apply. Rates quoted above are for Shift 1, 7AM-6PM, Monday-Friday. The hours and respective discounts of other shifts are:

Shift	Hours	Discount
2ND	6PM to Midnight, Monday through Friday	35%
3RD	Midnight to 7AM, Monday through Friday	50%
4TH	All day, Saturday and Sunday	60%

The Chargeback System

The primary objective of the UMIS Chargeback System is to maintain a provider/client partnership resulting in accountability for resources offered and resources consumed. This partnership is based on UMIS recovering a portion of its processing expenses. For fiscal year 1992-93, clients will continue to be charged directly for 22% of the processing budget.

How the Chargeback System Works

The Chargeback System breaks down client costs into four resource categories: Processor, Disk, Communications, and Printing. Each resource category is billed by using measurements called "billing elements." Billing elements are collected by the computer operating system and vary based on services used. Below are definitions of the resource categories, and their respective billing elements.

Resource Categories				
Service	Processor	Disk	Communications	Printing
TSO	CPU Time ¹		Connect Time ³	Pages ⁵
CICS	CPU Time ¹		Terminal Control Bytes ⁴	
Batch Jobs	CPU Time ¹			Pages ⁵
Disk Storage		Track Weeks ²		
Asynchronous			Connect	Time ³
ADABAS	CPU Time ¹	Track Weeks ²		

Footnotes

1. CPU time includes time used by the service (TSO, CICS, or Batch) as well as time spent using ADABAS.
2. The quantity and time variable used to express the amount of time and the quantity of disk space, or tracks, the client occupies.
3. The amount of time the client stays connected to the administrative mainframe.
4. The quantity of data transferred between the administrative mainframe and terminals. Data is transferred over communications equipment.
5. Client charges for printing on UMIS impact printers.

Payment Options: Fixed vs. Variable

UMIS offers two Chargeback rate options: *fixed* and *variable*. With the *fixed* charge option, UMIS provides an estimate of next year's charges based on last year's usage and current rates. If your department agrees with the estimate, UMIS will guarantee this amount as your fixed usage charge. If actual usage is greater, UMIS will absorb the difference. Similarly, if actual usage is lower, UMIS will not refund the difference.

With the *variable* fee option, your department may determine a level of usage for the next fiscal year. If actual usage is higher, you will be charged for the difference. If actual usage is lower, the difference will be refunded to you, in the 13th month. Open enrollment in the billing structure is from June 1 to June 15. During this time, organizations have the opportunity to establish or change their billing structures from fixed to variable, or vice versa.

Charges Not Included: Two types of administrative computing services will continue to be invoiced manually: Laser Printing and Opscan.

The FY 92-93 rates are:

Resource Category	Unit of Measure	FY 92-93 Rates
Laser Printing		
Simplex (printed on one side only, equals 1 logical page)	Logical Page	\$0.017
Duplex (printed on two sides, equals 2 logical pages)	Logical Page	\$0.014
Quadraplex (printed on two sides, two logical pages per side, equals 4 logical pages)	Logical Page	\$0.009
Special Forms		To be set
Opscan	Hour	\$45.00

*A logical page contains the same amount of text as an ordinary impact printer page. The terms Simplex, Duplex, and Quadraplex refer to the number of logical pages printed on one physical sheet of paper. For example, Quadraplex printing has 4 logical pages reduced to fit on one sheet of paper.

Type of Printed Page	Physical Page	Logical Page(s)
Simplex	1	1
Duplex	1	2
Quadraplex	1	4

For more information call Phillip Silmser, 573-3162.

Computing Resource Center Lab Rental Fees

All CRC training facilities are available for rent to university offices and departments. However, these rentals are limited because these facilities are also used to offer our standard complement of free weekly computer training courses to the entire university community.

The CRC has 3 training areas—two labs and a seminar room.

The Macintosh lab is equipped with 12 Apple Macintosh IIsi's with color monitors, 5 MB of memory, an 80 MB hard drive, and PennNet connections. The instructor machine is a Macintosh IIfx with a color monitor, 4 MB of memory, a 40 MB hard drive, and a PennNet connection. Projection equipment for the instructor machine is a monochrome Sharp QA 50 LCD Projection Panel and an overhead projector.

The PC lab is equipped with 15 IBM PS/2 Model 50's, upgraded with 20 MHz 386sx processor with color monitors, 2.5 MB of memory, 80 MB hard drives, and PennNet connections. Projection equipment for the instructor machine is a monochrome Sharp QA 50 LCD Projection Panel and an overhead projector.

The Bit & Pieces seminar room contains seating for approximately 30 people. It is equipped with one Macintosh and one PC, both PennNet connected. The Macintosh is a IIfx with a color monitor, 8 MB of memory, and a 200 MB hard drive, capable of running either 6.0.7 or 7.01. The PC is a Dell 386 with a color monitor, 1 MB memory, and a 100 MB hard drive running DOS 5.0. Projection equipment for both machines is a color Sharp QA 1000 LCD Projection Panel and an overhead projector.

These training facilities are rented on a half and full day basis, and the fees are as follows:

	Half day	Full day
PC & MAC Labs	\$350	\$700
Seminar Room	\$250	\$500

The CRC reserves the right to charge the renter the repair, maintenance/clean up, or replacement cost for any damage to our facility during any rental period.

For more information, please call the Training Department of the CRC at: Ext. 8-9085.

PennNet Pricing for FY 92-93

Over the past year, the pressure on the fiscal resources of the University has increased dramatically. In that environment, it became important that DCCS look closely at our charges to identify ways to minimize increases or, where possible, decrease our charges to the Penn community. We have done so, and, in the case of Ethernet monthly port charges, we have been able to institute a 22% decrease in the monthly charge. For our other charges, we have been able to decrease the rate of growth when compared to the increases announced for FY 1991-92.

DCCS currently has three separate charges associated with the operation of PennNet. The first is the Monthly Port Charge which covers the maintenance and depreciation of the equipment used, troubleshooting and repairing problems which occur with the individual connections, and the maintenance, operation and depreciation of central resources which are available to all people with access to PennNet. For FY 1992-93, the charges will be as follows:

Type Connection	FY 91/92	FY 92/93
Asynchronous	\$22.00/Mo.	\$22.50/Mo.
Ethernet	\$31.50/Mo.	\$24.50/Mo.

In addition, there is an option where a client can prepay the capital costs of the electronics associated with each connection (\$250 per connection for both asynchronous and ethernet connections) and reduce the monthly port charge to \$16 per month for asynchronous connections and \$18 per month for ethernet connections.

The second DCCS charge is the Central Service Charge. The purpose of this charge is to recover the cost of the maintenance, operation and depreciation of central PennNet resources from those people who access PennNet via a locally-maintained connection and thus do not pay a monthly port charge to DCCS. This charge was introduced in 1990 and was originally planned to be phased in over four years. However, because of the financial climate, we have decided to add an additional year to lessen the immediate financial impact.

All workstations on locally maintained connections to PennNet which provide access to the network for an individual are subject to this charge. A 30% discount is available for those organizations which provide front line support to their end-users and who are willing to limit the contact with DCCS to their own support staff. Additional discounts (\$0.25 - \$0.75 per port per month) are available to those organizations who assume financial responsibility for the payment of the Central Service Charge for 100 or more individual workstations. For terminal servers and gateway devices such as a Cayman Gator Box, the charge is set at 50% of the base charge to reflect that not all ports may be placed in service.

In FY 1992-1993, the base charge is as follows:

Base Central Service Charge	FY 91-92	FY 92-93
	\$3.60/Month	\$4.65/Month

The final DCCS Charge is the installation charge. For this charge, DCCS charges the actual cost of the labor and materials used to install the wiring and electronics associated with the individual connection being installed.

There is considerable variability in these charges because of building design, its construction and the nature of its use. We are in the process of revising our wiring standards, which should result in a decrease in the average installation charge. In the meantime, we expect the average to remain around \$450 per port.

For more information and the specific terms and conditions contact George McKenna, at: mckenna@dccs.upenn.edu or Ext. 8-8184.

—George McKenna, Director of Network Operations

University of Pennsylvania Police Department

This report contains tallies of part 1 crimes, a listing of part crime against persons, and summaries of part 1 crime in the five busiest sectors where two or more incidents were reported between **May 25, 1992 and July 12, 1992.**
Totals: Crimes Against Persons -14, Thefts -15, Burglaries -32, Thefts of Auto -6, Attempt Thefts of Auto -1

Date	Time	Location	Incident
Crimes Against Persons:			
05/29/92	7:43 PM	3600 block Chestnut	Complainant assaulted/head and facial injuries
05/31/92	2:27 PM	Lot 1	Robbery/2 apprehensions/ no injuries
06/13/92	9:50 PM	200 block 36th	2 males robbed complainant of \$5
06/13/92	9:54 PM	37th & Spruce	3 males attempted robbery/no injuries
06/15/92	4:25 PM	3700 block Locust	Actor maced complainant's face
06/22/92	6:18 PM	37th & Sansom	2 actors took cash/ no injuries
06/26/92	12:31 AM	3400 block Spruce	Rider pushed from bike/bike taken
06/26/92	6:51 PM	37th & Spruce	MAC card taken
06/29/92	5:54 PM	Steinberg/Dietrich	Male attempted to take bike
06/29/92	7:00 PM	Franklin Field	Complainant struck with spiked shoes
07/02/92	8:23 PM	Delta Psi	Robbery gunpoint/ VCR/computer taken
07/06/92	5:28 PM	200 block 33rd	Officer assaulted by suspect
07/07/92	11:05 PM	Dining Commons	Attempted robbery/ no injuries
07/12/92	9:49 PM	Zeta Psi	Robberygunpoint/no injuries/ 1 arrest
34th to 38th; Civic Center to Hamilton			
05/27/92	8:23 AM	Anatomy-Chem Wing	Typewriter taken from room
06/01/92	1:37 PM	Richards Building	Unsecured calculator taken
06/01/92	3:06 PM	Richards Building	Cash taken from unsecured desk
06/02/92	4:11 AM	Leidy Lab	Lab window broken/TV taken
06/02/92	2:59 PM	Leidy Lab	Bike's front tire taken
06/05/92	10:28 AM	Lot 18	Money taken from auto
06/11/92	6:55 PM	Johnson Pavillion	Bike taken from rack
06/16/92	9:52 AM	NEB	Wallet and contents taken from room
06/16/92	10:05 PM	Medical School	Bike taken
06/17/92	1:30 PM	Hamilton Walk	Bike taken from rack
06/26/92	12:31 AM	3400 Block Spruce	See entry under crimes against persons
06/26/92	10:53 AM	Richards Building	Clock taken from room
06/29/92	4:23 PM	Medical School	Secured bike taken from rack
06/30/92	4:12 PM	Clinical Res. Building	Dictaphone taken from room
07/02/92	9:15 AM	Medical School	Cash taken from vending machine
07/04/92	6:10 PM	Leidy Lab	Cash taken from vending machine
07/06/92	3:05 PM	Richards Building	Theft of mail
07/07/92	8:30 AM	Blockley Hall	Keys and mail taken from room
32nd to 33rd; South to Walnut			
06/06/92	8:39 PM	Lot 5	Window broken/cash taken from auto
06/09/92	7:42 PM	Rittenhouse Lab	Bike taken from rack
06/12/92	2:21 AM	Rittenhouse Lab	Window broken/ itemstaken
06/12/92	10:10 AM	Hutchinson Gym	Unattended wallet taken
06/15/92	7:34 PM	Hutchinson Gym	Secured bike taken from rack
06/17/92	6:27 PM	Hutchinson Gym	Attempt theft/ actor apprehended
06/20/92	3:27 PM	Hutchinson Gym	Wallet taken from basketball court
06/22/92	10:08 PM	Hutchinson Gym	Unattended wallet taken
06/25/92	7:43 PM	Rittenhouse Lab	Secured bike taken from rack
06/26/92	1:33 AM	LottTennis Courts	Unattended wallet taken from bench
06/26/92	9:03 PM	200 block 33rd	Purse Snatch/ 1 arrest
06/28/92	5:44 PM	Rittenhouse Lab	Bike taken from rack
06/29/92	7:00 PM	Franklin Field	See entry lunder crimes against persons
07/06/92	11:59 AM	Rittenhouse Lab	Bike taken from inside hallway
07/06/92	5:28 PM	200 block 33rd	See entry under crimes against persons
07/09/92	12:25 AM	Lot 5	Auto taken from lot
07/12/92	7:54 PM	Lot 5	Tools taken/suspect apprehended
36th to 37th; Locust to Walnut			
05/26/92	4:49 PM	Theta Xi	WWII items taken
05/20/92	4:54 PM	Annenberg Center	Wallet & contents taken
06/01/92	1:11 PM	3611 Locust Walk	Female tried to take purse
06/05/92	8:06 PM	Annenberg Center	2 males removed trash liners into auto
06/07/92	10:03 AM	Christian Association	CD player taken
06/16/92	2:34 AM	Theta Xi	Bike taken from house
06/18/92	11:14 AM	Faculty Club	Watercolor print taken from hallway
06/23/92	8:57 PM	Christian Association	Wallet and contents taken
06/30/92	4:34 PM	Delta Phi	Bike taken from basement
07/02/92	7:46 AM	Faculty Club	Fax machine taken
07/02/92	8:23 PM	Delta Psi	See entry under crimes against persons
07/06/92	9:51 AM	Annenberg Center	Radio taken from secured room
07/06/92	3:52 PM	Delta Psi	Stereo taken
07/06/92	9:44 PM	Christian Association	Cash and ID taken
34th to 36th; Spruce to Locust			
05/28/92	11:17 AM	Houston Hall	Cash withdrawn from other's account
05/29/92	9:16 AM	Houston Hall	Cash taken from video games
05/29/92	8:07 PM	Houston Hall	Unsecured bike taken
06/02/92	12:43 PM	Houston Hall	Bike taken
06/02/92	9:23 PM	Williams Plaza	Secured bike taken from rack
06/05/92	1:35 AM	Lot 9	Auto window broken/contents taken
06/08/92	8:09 AM	College Hall	Computer taken
06/10/92	9:20 AM	College Hall	Unsecured bike taken
06/13/92	9:50 PM	200 block 36th	See entry under crimes against persons
06/16/92	2:38 AM	College Hall	Office window broken/computer taken
06/17/92	3:10 PM	Houston Hall	Purse taken from outside wall
06/17/92	7:36 PM	Admissions Walk	Auto's window broken/car phone taken
07/01/92	8:02 PM	Williams Plaza	2 actors stole bike/arrested
07/08/92	8:51 AM	Furness Building	Secured bike taken

(continued next page)

(continued from page 7)

33rd to 34th; Spruce to Walnut

06/02/92	5:18 PM	Chemistry Building	Bike taken
06/04/92	4:28 PM	Hayden Hall	Wallet & contents taken from room
06/10/92	2:29 PM	Chemistry Building	Secured bike taken
06/11/92	5:18 PM	Bennett Hall	Bike taken from rack
06/16/92	1:36 PM	Towne Building	Bike taken from outside
06/24/92	7:40 AM	Towne Building	Printer taken from room
06/26/92	8:29 AM	Bennett Hall	Fax machine taken from room
06/27/92	12:39 PM	Bennett Hall	Secured bike taken from rack
06/30/92	6:10 PM	Chemistry Building	Secured bike taken from rack
07/01/92	12:35 PM	Chemistry Building	Bike wheel and seat taken
07/06/92	9:01 AM	Towne Building	Various items taken from room
07/10/92	5:20 PM	Chemistry Building	Bike taken from inside building

Safety Tip: Stick to well-lighted, well-traveled areas. No shortcuts through wooded areas, parking lots or alleys. In case of emergency call the University Police immediately at 898-7333 or from an On-Campus phone dial 511.

18th District Crimes Against Persons

Schuylkill River to 49th Street, Market Street to Woodland Ave
12:01 AM May 25, 1992 to 11:59 PM July 5, 1992

Totals: Incidents-53, Arrests-11

Date	Time	Location	Offense/Weapon	Arrest
05/25/92	11:40 PM	4600 Spruce	Purse Snatch/strong-arm	No
05/27/92	10:24 PM	207 S 42	Robbery/gun	No
05/28/92	11:05 PM	4700 Locust	Robbery/baseball bat	No
05/29/92	12:30 AM	4100 Baltimore	Robbery/strong-arm	No
05/29/92	2:30 PM	4800 Walnut	Robbery/gun	Yes
05/29/92	10:35 PM	3600 Sansom	Robbery/knife	No
05/30/92	6:00 AM	4800 Market	Aggravated Assault/unknown obj	No
05/30/92	3:55 PM	4314 Locust	Robbery/strong-arm	Yes
05/30/92	11:05 PM	4718 Chestnut	Robbery/gun	No
05/31/92	11:35 AM	1119 S. 47	Aggravated Assault/kerosene	Yes
05/31/92	2:27 PM	100 S. 33	Robbery/gun	Yes
05/31/92	11:35 PM	1119 S. 47	Aggravated Assault/kerosene	Yes
06/02/92	8:55 PM	4240 Chestnut	Aggravated Assault/gun	No
