University Council, 1992-93

The University Council exists to consider the activities of the University broadly in all of its phases with particular attention to the educational objectives of the University and those matters that affect the common interests of faculty and students. It recommends general policies and otherwise advises the president, the provost, and other officers of the University. It is empowered to initiate policy proposals as well as to express its judgment on those submitted to it by the administrative officers of the University and its various academic divisions. It is also empowered to request information through appropriate channels from any member of the University administration.

Any member of the University may suggest questions or proposals for the consideration of the University Council by submitting them in writing to the Steering Committee addressed to the Office of the Secretary, College Hall. **Members of the Senate Executive Committee

Council and Independent University Committees

Much of the work of the University Council is done through its standing committees. They are chosen each spring through the Committee on Committees, which makes the recommendations after issuing a campus-wide call for nominations. The Committee on Committees also recommends members for University-wide bodies known as Independent Committees. Appointments to these (next page) are made by the Steering Committee, the one exception being the Academic Planning and Budget Committee, appointments to which are made by the president, the Senate Executive Committee, the Undergraduate Assembly and the Graduate and Professional Student Assembly.
