Penn President Amy Gutmann (second from right) with the honorary degree recipients before the 257th Commencement on May 13. Back row: Ursula M. Burns, Kwame Anthony Appiah, James Edward West, Samuel H. Preston; front row: Ellen Mosley-Thompson, Lonnie G. Thompson, US Vice President Joseph R. Biden, Jr., President Gutmann and Ngozi Okonjo-Iweala. Vice President Biden gave the Commencement Address; he was the first vice president of the United States to do so at Penn while serving in that office.

**Vet Medicine Teaching Awards**

The Zoetis Distinguished Teacher Award [formerly Carl J. Norden-Pfizer]

Dr. Erika Krick

The Zoetis Distinguished Teacher Award is the most prestigious teaching award in veterinary medicine. It is presented annually to a faculty member at each college of veterinary medicine in the US. Its purpose is “to improve veterinary medicine education by recognizing outstanding instructors, who, through their ability, dedication, character and leadership contribute significantly to the advancement of the profession.” This year’s recipient at Penn is Dr. Erika Krick.

“Dr. Krick is the kindest doctor in the hospital. She constantly has a smile from ear to ear when working with students and she causes a similar reaction with her students and clients. Dr. Krick is a stupendous role model.”

Dr. Krick graduated from Penn’s School of Veterinary Medicine in 2002. After one year of general practice she returned to Penn to complete a one year rotating internship in small animal medicine and surgery and a three year medical oncology residency. Dr. Krick is a board-certified oncology residency. Dr. Krick is a board-certified oncology residency. She constantly has a smile from ear to ear and is a one year rotating internship in small animal medicine and surgery and a three year medical oncology residency. Dr. Krick is a board-certified oncology residency. Dr. Krick is a board-certified oncology residency.

**Dental Medicine Teaching Awards**

Penn Dental Medicine faculty members were honored for excellence in teaching at the School’s Senior Farewell, held May 7 at The Bellevue in Center City Philadelphia. Each academic year, the graduating class recognizes members of the faculty with teaching awards, presented at this annual event that celebrates the passage of students to professional dentistry. The event is sponsored by the Penn Dental Medicine Alumni Society. The awards and recipients included the following:

**The Zoetis Distinguished Teacher Award.**

It is presented to a faculty member who has gone beyond the scope of his/her responsibilities to significantly impact the class’s education at Penn Dental Medicine. This year, the Senior Outstanding Teaching Award was presented to Dr. Arthur Kuperstein, assistant professor of oral medicine and course and clinic director of the Oral Diagnosis and Emergency Care Clinics. This is the sixth time that Dr. Kuperstein has been recognized with this award. He has been part of Penn Dental Medicine since 2002, and in addition to

(continued on page 4)

**Law School Teaching Awards**

The University of Pennsylvania Law School has named four recipients of teaching awards for the 2012-2013 academic year. They are Edward B. Rock, L’83 (Robert A. Gorman Award for Excellence in Teaching), Anita Allen (A. Leo Levin Award for Excellence in an Introductory Course), Perry Golkin, L’78 (Adjunct Teaching Award), and Gideon Parchomovsky (Harvey Levin Memorial Award for Teaching Excellence).

**The Robert A. Gorman Award for Excellence in Teaching**

Edward B. Rock, L’83, the Saul A. Fox Distinguished Professor of Business Law, joined the Law School faculty in 1989. He teaches courses in Corporations, Mergers & Acquisitions, Regulation of Financial Institutions, and Corporate Governance.

What Students Said: “Professor Rock is extremely knowledgeable in this area and it is clear he really loves it. He is constantly discussing current events and bringing the class concepts into the real world, which is great.”

“Because of this class and a few others like it, I have decided to pursue a practice in Delaware corporate law. Professor Rock is outstanding.”

“One of the best professors I’ve had in Penn Law and probably in my life, he stimulates students to think beyond the material assigned for class and come up with their own ideas, structures and conclusions.”

**The A. Leo Levin Award for Excellence in an Introductory Course**

Dr. Anita Allen, the Henry R. Silverman Professor of Law and professor of philosophy, joined the Law School faculty in 1998. She teaches courses in Privacy and Data Protection Law, Introduction to Ethics, Bioethics and the Law of Mental Health, Tort, and African American Philosophy since 1960.

Commencement 2013
Trustees’ May Coverage

On May 9, the Budget & Finance Committee as well as the Executive Committee of the Trustees met in Houston Hall.

President Amy Gutmann said that the biggest compliment that she got from a student about the Time to Shine party on Penn Park was that it was “better than Spring Fling.” She added that there will be a Time to Shine international tour building on the momentum of the Making History campaign, with a focus on new strategic priorities.

Provost Vincent Price said that at the Coursera Conference Penn had hosted there were more than 400 attendees from 98 institutions, including 20 international universities. There are more than one million enrollees in Penn’s Coursera courses.

EVP Craig Carnaroli’s financial report for the nine months that ended March 31, 2013 showed that for the Consolidated University, total net assets were up $599 million over last year, driven largely by strong investment and operating performance. Net operating income was $27 million higher than last year, and $109 million above budgeted net income. For the Academic Component, total contributions—pledges and new gifts—totaled $332 million, an increase of $73 million over the prior year, reflecting a successful culmination of the Making History campaign. The Health System’s operating margin totaled $124 million, $34 million below the prior year and $11 million below budget. Operating revenue increased by $89 million. Expenses increased by $123 million (5.1%). Capital expenditures increased (75.5%) to $149 million.

Dr. Larry Jameson noted that Penn Medicine’s incoming class includes about one third of students who are the first college graduates in their families. There were 160 new physicians who graduated from the Perelman School of Medicine last week.

There were six resolutions approved by the Trustees: to authorize the monetization of the University’s royalty interest in Juxtapid (lomitapide); to renew the guarantee of a $1.4 million loan to the Caring Center by Citizens Bank; to authorize Steinberg Hall-Deitrich Hall air handling unit 3, 4, 5 replacement; to authorize $63.5 million for development and construction of a medical education center; to approve Morgan Building switchgear upgrade ($6.3 million); and to authorize $63.5 million for development and construction of a medical education center and faculty offices at the Perelman Center for Advanced Medicine South Pavilion; and to approve the transaction related to the Chester County Hospital and Health System and its affiliates.

Invitation to AllPPSA Members: May 23 Meeting

The Executive Board elections and Closing meeting will take place on May 23, 2013, from noon-1 p.m. in Claire Fagin Hall’s Ann L. Roy Auditorium. This year our featured speaker will be Maureen Rush, vice president of Public Safety. Vice President Rush will discuss Delivering Police and Public Safety Services to a Diverse Community.

Please RSVP at http://tinyurl.com/ppsa-elections if you plan to attend.

The nominees for the PPSA Board for 2013-2014 are:
Chair-elect
Emma Grigore, Wharton Human Resources

Members-at-Large
James G. Allen, Facilities and Real Estate Department
Janet Ansret, SRFS Registrars Office
Laurl Arthur, Information Systems and Computing
Nora Blumenstein, VPUL/Civic House
Patrick Butler, VPUL Technology Services, VPUL
Tia Drehart, Center for Clinical Epidemiology & Biostatistics (CEB)
Kristin Field, Penn Genome Frontiers Institute (Provostial Institute)
Eisha A. Moore, Penn School of Design, Department of Architecture
Laurie-Ellen Shumaker, Facilities & Real Estate Services
Bianca Swift, Wharton Executive Education

When you receive notification please take a minute to cast your vote. For biographies and personal statements for each of these candidates, please see the 2013-2014 Executive Board Nominees page, at http://penn-ppsa.org Since this is a celebration, lunch will be provided.

—Holly L. Marrone, Chair —Utsav Schurman, Chair-Elect —Anna Loh, Past Chair
The Harvey Levin Memorial Award for Teaching Excellence

By democratic vote, the Penn Law 2013 graduating class has selected Gideon Parchomovsky, the Robert G. Fuller, Jr., Professor of Law, to receive the Harvey Levin Memorial Award for Teaching Excellence. Professor Parchomovsky joined the Law School faculty in 2002 and has twice received the A. Leo Levin Award for Excellence in an Introductory Course, in 2004 and again in 2011. He teaches courses in Property Law, Copyright Law, and Impact of the Internet on Copyright and Patent Law.

What Students Said:
“Mr. Parchomovsky is an excellent professor.”
“He’s absolutely delightful! Without question, one of the most engaging lecturers I’ve ever encountered.”
“I really love Parch. He is one of the best teachers at the Law School.”
“Superb. One of the more provocative (in the best way possible) professors at Law School.”

Deaths

Dr. Kuklick: History and Sociology of Science

Henrika Kuklick

She came to Penn in 1974 as a senior fellow, in 1976 was appointed an adjunct assistant professor, assistant professor of history and sociology of science in 1981 and in 1987 associate professor. In 1995 she was promoted to professor of history and sociology of science. She was chair of the department in 2000, and retired in 2012 and became emerita professor in 2013. Dr. Kuklick specialized in the history of sociology and anthropology. Among her many publications was the work The Savage Within: The Social History of British Anthropology, 1885-1945.

Dr. Kuklick was the recipient of a University Research Foundation Awards & URF Conference Support Award in 2004.

Gloria Shihadeh Swift

She is survived by her former husband, Bruce; daughter, Marva; brother, Jonathan Takiff; and a sister, Karin.

Donations may be made in her memory to the Morris Animal Refuge, 1242 Lombard St., Philadelphia, PA 19147.

Mrs. Swift: Penn Museum

Gloria Shihadeh Swift, retired staff member of the Penn Museum, died on May 14 at the age of 89.

Born in 1924, Mrs. Swift graduated from Wilson College in 1944 and began a lifelong career in 1945 at the University of Pennsylvania Museum of Archaeology and Anthropology as secretary to the director. In 1952 she was appointed administrative assistant to the director and in 1979 became the assistant to the financial and administrative director. In 1983 she became the business and personnel administrator. She retired in 1989 after 44 years of service to the Museum.

She is survived by her daughters, Marilyn Swift Campbell, Barbara and Jane Swift Costello; sons Martin R. Jr., and Edward and Theodore and Christopher Albany.

In lieu of flowers, contributions may be made to the University of Pennsylvania Museum Gloria Swift Fund.

Ms. White: Library

Ms. Joyce L. White, the former head of the Penniman Library, died on May 10 at the age of 84 in Denver, Colorado.

Born in 1927, Ms. White, joined Penn in 1949 as a serial department assistant and became head of the Penniman Library in 1957 where she remained until 1976. At that time the Penniman Library, which had been housed on the second floor of Bennett Hall was merged into the Van Pelt Library collection.

To Report A Death

Almanac appreciates being informed of the deaths of current and former faculty and staff members, students and other members of the University community. Call (215) 898-5274 or email almanac@upenn.edu

Hosting International Homelessness Research Conference at Penn

The University of Pennsylvania will be the site for a two-day International Homelessness Research Conference: Advancing the Policy and Practice of Crisis Response Systems on June 3-4.

Dr. Dennis Culhane, the Dana and Andrew Stone Chair in Social Policy in the School of Social Policy & Practice and research director for the VA’s National Center on Homelessness Among Veterans, is the organizer. He said the conference will create connections among researchers, policy makers and practitioners around the globe.

“Internationally, we’ve been collaborating on many important innovations to address homelessness, including efforts at prevention and ‘housing-first’ strategies for people who experience long-term homelessness. This conference will enable us to share the results of those efforts with each other and with a larger audience,” Dr. Culhane said.

Designed to showcase the latest research in advancing the policy and practice of homeless crisis response systems, the conference will draw attendees and presenters from the United States, Australia, Canada and Europe. It will feature international perspectives on homelessness prevention, outreach, housing programs and the effectiveness of new interventions.

Shaun Donovan, secretary of the US Department of Housing and Urban Development, will deliver the keynote address.

The conference is free for conference committee members, Veterans Affairs employees and faculty and staff at the School of Social Policy & Practice.

Memorial Service: Dr. Shoemaker

Please note: The location for the June 15 memorial service for Dr. Louise P. Shoemaker has been changed to St. Mary’s Episcopal Church, 39th St. & Locust Walk. It will be at 2 p.m. See Almanac April 2, 2013.
Dental Medicine Teaching Awards

his clinical teaching responsibilities for all four years of the DMD curriculum, he also lectures within the postdoctoral programs, the program for advanced standing students, and various clinical and basic sciences courses. Dr. Kuperstein is also a past recipient of the Joseph L.T. Appleton Award.

The Joseph L. T. Appleton Award

It is presented to a part-time faculty member for excellence in clinical teaching. This year’s recipient is Dr. Scott Odell (D’82), clinical assistant professor of oral medicine. A member of the School’s faculty since 2007, Dr. Odell teaches diagnostic radiology and also teaches in the Emergency Care Clinic. This is the fifth year in a row he received the Appleton Award, named in honor of Dr. Joseph Appleton, a 1914 alumnus of Penn Dental Medicine, who served as dean of the School from 1941 to 1951. The award was founded in 1979 by Dr. Abram Cohen, a member of the Class of 1923 and father of Dean Emeritus D. Walter Cohen, Class of 1950.

The Basic Science Award

It is presented for excellence in teaching within the basic sciences. This year’s recipient is Dr. Elliot Hersh, professor of oral surgery and pharmacology, and marked the twentieth time he was presented with this award. A highly respected researcher in local anesthesia and the management of acute pain, Dr. Hersh has been part of the Penn Dental Medicine faculty since 1988.

Veterinary Medicine Teaching Awards

owed veterinary oncol ogist and is currently an assistant professor of oncology, clinician educator track at the Penn School of Veterinary Medicine. Her primary research interests are feline oncology and mast cell tumors in dogs. She is specifically interested in cancer cachexia in cats and strategies to improve the quality and length of life for cats with cancer. Her primary teaching interest is client communication skills and increasing student exposure to this topic in the vet school curriculum.

The Boucher Teaching Award

Dr. Michelle Abraham, a native of New South Wales, Australia, began her career at New Bolton Center with Dr. Jon Palmer, as a fellow in the neonatal intensive care unit during the spring of 2009. Her love of foals was fostered in Kentucky, USA, and Newmarket, UK, prior to veterinary school at Murdoch University, AUS. Dr. Abraham honed her skills under the eye of Penn residency-trained Dr. Jane Axon at Scone Equine Hospital in Australia as an intern following her NICU fellowship. Dr. Abraham returned to New Bolton Center as a medicine resident in the fall of 2010 and immediately dove into both her clinical training and teaching career. Dr. Abraham and her fiancé, a fellow equine veterinarian, have two dogs and two cats. Dr. Abraham enjoys running, cooking, and gardening in her spare time. Winning the Boucher Award was made even sweeter when Dr. Abraham accepted the award from one of her mentors, Dr. Ray Sweeney.

Class of 2013 Philadelphia Campus Teaching Award

Dr. JD Foster graduated from Penn’s School of Veterinary Medicine in 2007. After spending one year in general practice followed by an internship at a VCA specialty hospital in Norwalk, Connecticut, he was accepted into a small animal internal medicine residency at the University of Wisconsin. During his residency, Dr. Foster developed a strong interest in nephrology and sought training in hemodialysis. After completing his residency training, Dr. Foster returned to Penn Vet as a lecturer within the small animal internal medicine service. At Penn, he restarted a hemodialysis service, which quickly grew to become one of the busiest veterinary dialysis centers in the nation.

“I spent some serious quality time with Dr. Foster during a dialysis case while on medicine, and I have to say that he is one of the most down to earth clinicians whose passion for teaching is undeniable. Not only did I learn so much from him, but he made overnight dialysis sessions entertaining and fun. He is by far one of the best clinicians at Penn Vet.”

Class of 2013 New Bolton Center Teaching Award

Dr. Mary Lassaline Utter received her veterinary degree from Michigan State University, followed by a residency in equine medicine and surgery at Rood and Riddle Equine Hospital in Lexington, Kentucky, and a residency in comparative ophthalmology at University of Florida in Gainesville. She is a Diplomate of the American College of Veterinary Ophthalmologists. She worked in private veterinary ophthalmology practice in Texas and Connecticut prior to joining the faculty at University of Pennsylvania’s New Bolton Center (NBC). She has a PhD in cognitive psychology from the University of Michigan, Ann Arbor. Her research in (continued on page 5)
Veterinary Medicine Teaching Awards

Dr. Jeffrey J. Runge graduated fromDickinson College and then received his DVM from Ross University. Following his internship at the Animal Medical Center in New York, Dr. Runge went on to do his surgical training at Penn Vet, which included a one year fellowship and a three year small animal surgical residency. Dr. Runge is currently a lecturer of small animal surgery at Penn Vet. He focuses primarily on laparoscopic and thoracoscopic minimally invasive surgery, and has lectured on single port and multiport laparoscopic surgery alike. Through ongoing collaboration with leading human laparoscopic surgeons, Dr. Runge and Penn Vet have become one of the leaders in veterinary reduced port surgery.

“Dr. Runge learned everyone’s name the first week of class. He held a laparoscopic surgery Olympics that was the most fun lab we’ve ever had. We have a lot of awesome professors here, but honestly, Dr. Runge stands out. He cares so much and wants us to succeed, and he knows his craft so well. Dr. Runge is reason enough alone to take small animal block.”

Class of 2014 and Class of 2015 New Bolton Center Teaching Award

Dr. Ray Sweeney earned his undergraduate degree from Dartmouth College and graduated from Penn Vet in 1982, followed by an internship and a residency at Penn Vet’s New Bolton Center. He has spent his entire 30-year career at New Bolton Center, where he is currently professor of medicine and chief of the section of medicine and ophthalmology at New Bolton. Dr. Sweeney’s clinical specialty is internal medicine of large animals, and his research work is focused on paratuberculosis and other infectious diseases of cattle. He teaches in all four years of the veterinary curriculum, including lectures, hands-on laboratories, and clinical instruction of fourth-year students. Dr. Sweeney has been a four-time winner of the Carl Norden-Pfizer Distinguished Teacher Award, was a recipient of the Lindback Award for Distinguished Teaching, and in 1992 was awarded the North American Outstanding Teacher Award by the American Association of Veterinary Medical Colleges.

“Nothing makes it easier to show up for a 9 a.m. class than Dr. Sweeney and a few of his trademark jokes. His calm demeanor and great sense of humor make his lectures the rare and much-appreciated relief in an otherwise grueling second year schedule.”

“In addition to his dedication to teaching, Dr. Sweeney’s encouragement to develop a work-life balance makes him a great mentor to his students.”

Class of 2015 Philadelphia Campus Teaching Award

Dr. Roberta Di Terlizzi received her DVM in Italy in 1999 and had a residency at Kansas State University in veterinary clinical pathology ending in 2007. As a clinical instructor at Iowa State University, she worked in educational research as well as developing and implementing new tools in the classroom to improve student learning abilities. She is the clinical pathology course director who has implemented new approaches with the integration of team-based learning, turning point clickers response and case-based learning. At Penn Vet since 2009, she finds teaching very rewarding; it makes her feel accomplished in participating in students’ lives and as they grow toward becoming great doctors. She also enjoys working in the clinical lab, and in this role as diagnostician she is also able to teach residents and fourth-year veterinary students.

“There is simply no one in the school as enthusiastic and fun-loving as Dr. Di Terlizzi. She also happens to be an excellent professor and is constantly working to improve education at Penn Vet and around the world. Her passion for teaching is clearly evident in the classroom, where she is able to take complicated clinical pathology concepts and explain them in a simple, easy-to-understand way.”

Class of 2016 Lecture Teaching Award

Dr. Olena Jacenko received her undergraduate degree from Columbia University, majoring in biology and Russian. She earned a PhD from the University of Pennsylvania and was a postdoctoral fellow at Harvard Medical School. Dr. Jacenko is currently professor of Biochemistry at Penn Vet, where she also oversees faculty affairs and diversity. Dr. Jacenko is very active in teaching, serving on most departmental and School teaching committees, and has been instrumental in implementing Penn Vet’s teaching policies and curriculum. Her research is focused on skeletal development and blood cell differentiation, and she developed transgenic mouse models that are being used to define the hematopoietic stem cell niche. Dr. Jacenko has been honored with a teaching award by the students three times prior, and a Dean’s award for leadership in basic science education.

“Dr. Jacenko was one of our professors last semester, and she was definitely a wonderful teacher to have when first starting vet school! She is a great lecturer, and it is easy to see her passion for science and teaching. We really appreciate everything she’s done for us!”

Penn Vet’s Ryan Hospital: Trauma Center for Animals

The University of Pennsylvania’s Ryan Veterinary Hospital has been named one of the nation’s first trauma centers for animals.

The American College of Veterinary Emergency and Critical Care has designated nine hospitals across the country as veterinary trauma centers. Penn’s Ryan Hospital, located at 39th and Spruce Streets, is one of those facilities.

The trauma-center network aims to develop a database for animal-trauma research. The hospitals will work together to create standards and disseminate information about best practices.

“This new designation creates a standard of care in veterinary medicine that didn’t previously exist and provides pet owners with important information in the event of a trauma-related emergency.” Dr. Armelle de Laforcade, ACVECC’s executive secretary, said in a statement. The hospitals named as trauma centers need to provide complete trauma care to small animals on a 24/7 basis and have board-certified specialists in emergency care, critical care, surgery and radiology available every day.

Oradell Animal Hospital in Paramus, NJ was also designated as a trauma center. The other facilities are located in North Grafton, MA; Irvine, CA; Los Angeles, CA; Tampa, FL; Urbana, IL; St. Paul, MN; and Raleigh, NC.
AAI-BD Award: Dr. Artis

Dr. David Artis, assistant professor of microbiology at the Perelman School of Medicine, University of Pennsylvania, has received the AAI-BD Biosciences Investigator Award for outstanding, early-career research contributions to the field of immunology from the American Association of Immunologists (AAI).

Dr. Artis’s research is focused on understanding the regulatory mechanisms that control immune cell homeostasis at the body’s barrier surfaces. Employing diverse models of microbial colonization, pathogen infection and chronic inflammation, his research examines how mammalian host genetics and signals derived from commensal microbial communities influence innate and adaptive immune responses in the skin, lung, and intestine.

“It’s an enormous honor to be recognized by the members of the AAI with such a prestigious award,” said Dr. Artis. “I also thank all the trainees and collaborators that I have had the pleasure of working with. An award like this is a testament to their creativity, hard-work and dedication.”

Grand Challenges Canada Grant: Dr. Behrman

Dr. Jere R. Behrman, the William R. Kenan, Jr. Professor of Economics and Sociology at the University of Pennsylvania, is the lead researcher for an 18-month grant to the University from Grand Challenges Canada, for “Team 1000+ Saving Brains: Economic Impacts of Poverty-Related Risk Factors during the First 1000 Days for Cognitive Development and Human Capital.” The project will be centered at the Penn Population Studies Center, where Behrman is a research associate, but is part of a consortium with the University of Bristol and The Center for Disease Dynamics, Economics & Policy (CDDEP)/Public Health Foundation of India (PHFI) that involves over 50 investigators in 17 countries.

Funded by the Government of Canada, Grand Challenges Canada funds innovators in low- and middle-income countries and Canada. The organization works to catalyze scale, sustainability, and impact, focusing on results that save and improve lives globally. Its Saving Brains program focuses on interventions that nurture and protect brain development in the first 1,000 days of life.

As many as 200 million children fail to reach their full potential as a result of exposure to risk factors—malnutrition, infection, poor management of pregnancy, birth complications, and lack of stimulation and nurturing—from conception to two years of age. Targeted interventions may help unlock the potential of the next generation of children, and provide their countries with an exit strategy from poverty. The complexity of the issue requires integrated innovation, which is at the heart of the Grand Challenges Canada approach.

Three AAAS Members

The Perelman School of Medicine researchers Dr. Shelley L. Berger, the Dr. Daniel S. Och University Professor of Cell and Developmental Biology; director of the Penn Epigenetics Program, and Dr. Virginia Man-Yee Lee, director, Center for Neurodegenerative Disease Research; John H. Ware 3rd Professor in Alzheimer’s Research; and professor of Pathology and Laboratory Medicine, and Dr. Lawrence D. Brown, the Miers Busch Professor and professor of statistics, at the Wharton School have been elected as new members to the American Academy of Arts and Sciences.

One of the nation’s most prestigious honor societies, the Academy is also a leading center for independent policy research. The current membership includes some of the world’s most accomplished leaders from academia, business, public affairs, the humanities and the arts.

The new class will be inducted at a ceremony on October 12, 2013, at the Academy’s headquarters in Cambridge, Massachusetts.

American Academy in Berlin: Dr. Breckman

Dr. Warren Breckman, professor of history in the department of history, has been named a 2013 Fellow of the American Academy in Berlin. Dr. Breckman is a professor of modern European intellectual and cultural history. His books include Karl Marx, the Young Hegelians, and the Origins of Radical Social Theory: Desserting Self and European Romanticism: A Brief History with Documents. His latest book, Adventures of the Symbolic: Post-Marxism and Radical Democracy, will be published in June.

American Academy fellows are in residence at the Hans Arnhold Center for one academic semester or occasionally for a full academic year. Fellows become involved in Berlin’s cultural, social, and intellectual scene beyond the walls of the Academy, often by establishing close working affiliations with institutions related to their fields. The ultimate aim of the American Academy is to bring the best and brightest Americans to the interested German public, through publications, media contacts and public lectures.

SAA VP & President: Dr. Bushnell

Dr. Rebecca Bushnell, Dean of the School of Arts & Sciences (SAS), Thomas S. Gates, Jr. Professor, and professor of English at the University of Pennsylvania, has been elected the vice-president of the Shakespeare Association of America (SAA). She will become president of the Association next year.

The SAA is a nonprofit academic organization devoted to the study of William Shakespeare and his plays and poems, the cultural and theatrical milieu in which he lived and worked and the various roles he has played in both Anglo-American and world culture ever since.

Dr. Bushnell is a scholar of early modern English literature, culture and history, as well as an expert on the literary genre of tragedy.

The SAA holds annual meetings in different North American cities so that its members can exchange ideas and discuss strategies for reading, teaching, researching and writing about Shakespeare’s works and their many contexts. Sessions at these conferences include formal papers, seminars, workshops, film screenings and theatrical performances.

One Simons Investigator; Two Simons Fellowships

Dr. Rajeev Alur, the Zisman Family Professor in the department of computer and information science, has been named a Simons Investigator by the Simons Foundation. The Simons Investigators program provides a stable base of support for outstanding scientists, enabling them to undertake long-term study of fundamental questions. Investigators receive $100,000 per year for up to ten years to conduct basic science research.

Dr. Alur’s research is aimed at improving technology for design and analysis of reliable software systems. His team is interested in developing specification and verification protocols for formalizing correctness requirements, modeling notations for constructing modular descriptions of complex systems, and verification algorithms for (continued on page 7)
SAE Fellow: Dr. Jackson

Dr. Andrew Jackson, professor of practice, in the department of mechanical engineering and applied mechanics has been selected for an SAE Fellowship. This status is the highest grade of membership bestowed by SAE International. It recognizes outstanding engineering and scientific accomplishments by an individual that have resulted in meaningful advances in automotive, aerospace and commercial-vehicle technology. The program, established in 1975, recognizes an average of 20 worldwide recipients for this honor each year.

SAE International is a global association of more than 138,000 engineers and related technical experts serving in the aerospace, automotive and commercial-vehicle industries. SAE International’s core competencies are life-long learning and voluntary consensus standards development. SAE International’s charitable arm is the SAE Foundation, which supports programs, including A World in Motion and the Collegiate Design Series.

APS Member: Dr. Katz

Dr. Michael Katz, Walter H. Annenberg Professor of History and research associate in the Population Studies Center, has been elected to the American Philosophical Society (APS). The APS honors extraordinary accomplishments in the fields of mathematical and physical sciences; biological sciences; humanities; and professions, arts, and affairs.

Dr. Katz’s work focuses on three major areas: the history of American education, the history of urban social structure and family organization, and the history of social welfare and poverty. From 1991-1995 and 2011–2012, he was chair of the history department; from 1983-1996 he directed or co-directed the undergraduate Urban Studies Program; and in 1994, he founded the graduate certificate program in Urban Studies, which he co-directs.

The American Philosophical Society was founded in 1743 by Benjamin Franklin and John Bartram, two years before the founding of the University of Pennsylvania.

Penn Prize for Excellence in Teaching by Graduate Students

The 2013 recipients of the “Penn Prize for Excellence in Teaching by Graduate Students” are:

Justin Bleich, statistics
Nina Cohen, history
Torin Greenwood, mathematics
Paul Gurniak, electrical and systems engineering
Bruno Melillo, chemistry

Dr. Karen Detlefsen, associate professor of philosophy and education, chaired the Selection Committee comprised of faculty, undergraduates representing the UA and SCUE, and former Penn Prize winners. There were 178 nominations from which the committee selected 29 finalists. Ten were chosen for the award. A reception was held in their honor on Thursday, April 25th at the Graduate Student Center. Vice Provost for Education Andrew Binns made brief remarks and presented certificates.

From left to right: recipients of the Penn Prize for Excellence in Teaching by Graduate Students— Torin Greenwood; Nina Cohen; Zenan Wu; Justin Bleich; Juliet Sperling; Evan Perkoski; Jessie Regunberg; Vice Provost Andrew Binns; Paul Gurniak; Bruno Melillo. Not pictured: Megan Petteiger.

Mirjam Cvetic
Ron Donagi

Checking systems against requirements.

Dr. Mirjam Cvetic, the Ray R. and Eugene L. Langberg Professor of Physics and associate chair of undergraduate affairs, department of physics and astronomy, and Dr. Ron Donagi, professor of mathematics, in SAS are the recipients of the 2013 Simons Foundation Fellowships. This is the second year that these awards have been given to outstanding mathematicians and theoretical physicists to focus solely on research for one year.

Dr. Cvetic’s research efforts are in gravitational theories. In particular the fundamental origins of black holes and the connection between string theory and elementary particle physics. Dr. Donagi’s project focuses on supersymmetry, and its central role in superstring perturbation theory as encoded in the geometry of the moduli spaces of super Riemann surfaces.

The Simons Foundation is a private foundation based in New York City, incorporated in 1994 by Jim and Marilyn Simons. The Foundation’s mission is to advance the frontiers of research in mathematics and the basic sciences.

de Karman Scholarship: Mr. Gabrieli

Mr. David Gabrieli (BE’14), has been awarded a Josephine de Karman Fellowship, a merit-based award for doctoral students or undergraduates entering their final year.

Mr. Gabrieli is pursuing a major in bioengineering with a minor in mathematics. He currently holds undergraduate research positions in the department of biochemistry and biophysics at the Perelman School of Medicine and in the department of bioengineering at Penn Engineering. He participated in the 2012 Amgen Scholars Summer Research Program at Columbia University and is a 2013 John Thouron Research Prize recipient who will spend this summer studying at Pembroke College, Cambridge University, UK.

The Josephine de Karman Fellowship Trust was founded in 1954 by the late Dr. Theodore Von Karman, world renowned aeronautics expert and teacher and first director of the Guggenheim Aeronautical Laboratory at the California Institute of Technology.

Mr. Gabrieli is among eight North American students awarded Josephine de Karman Fellowships this year and is the second de Karman winner from Penn in two years.

APS Member: Dr. Katz

Dr. Michael Katz, Walter H. Annenberg Professor of History and research associate in the Population Studies Center, has been elected to the American Philosophical Society (APS). The APS honors extraordinary accomplishments in the fields of mathematical and physical sciences; biological sciences; humanities; and professions, arts, and affairs.

Dr. Katz’s work focuses on three major areas: the history of American education, the history of urban social structure and family organization, and the history of social welfare and poverty. From 1991-1995 and 2011-2012, he was chair of the history department; from 1983-1996 he directed or co-directed the undergraduate Urban Studies Program; and in 1994, he founded the graduate certificate program in Urban Studies, which he co-directs.

The American Philosophical Society was founded in 1743 by Benjamin Franklin and John Bartram, two years before the founding of the University of Pennsylvania.

Penn Prize for Excellence in Teaching by Graduate Students

The 2013 recipients of the “Penn Prize for Excellence in Teaching by Graduate Students” are:

Justin Bleich, statistics
Nina Cohen, history
Torin Greenwood, mathematics
Paul Gurniak, electrical and systems engineering
Bruno Melillo, chemistry

Dr. Karen Detlefsen, associate professor of philosophy and education, chaired the Selection Committee comprised of faculty, undergraduates representing the UA and SCUE, and former Penn Prize winners. There were 178 nominations from which the committee selected 29 finalists. Ten were chosen for the award. A reception was held in their honor on Thursday, April 25th at the Graduate Student Center. Vice Provost for Education Andrew Binns made brief remarks and presented certificates.

From left to right: recipients of the Penn Prize for Excellence in Teaching by Graduate Students—Torin Greenwood; Nina Cohen; Zenan Wu; Justin Bleich; Juliet Sperling; Evan Perkoski; Jessie Regunberg; Vice Provost Andrew Binns; Paul Gurniak; Bruno Melillo. Not pictured: Megan Petteiger.

Mirjam Cvetic
Ron Donagi

Checking systems against requirements.

Dr. Mirjam Cvetic, the Ray R. and Eugene L. Langberg Professor of Physics and associate chair of undergraduate affairs, department of physics and astronomy, and Dr. Ron Donagi, professor of mathematics, in SAS are the recipients of the 2013 Simons Foundation Fellowships. This is the second year that these awards have been given to outstanding mathematicians and theoretical physicists to focus solely on research for one year.

Dr. Cvetic’s research efforts are in gravitational theories. In particular the fundamental origins of black holes and the connection between string theory and elementary particle physics. Dr. Donagi’s project focuses on supersymmetry, and its central role in superstring perturbation theory as encoded in the geometry of the moduli spaces of super Riemann surfaces.

The Simons Foundation is a private foundation based in New York City, incorporated in 1994 by Jim and Marilyn Simons. The Foundation’s mission is to advance the frontiers of research in mathematics and the basic sciences.

de Karman Scholarship: Mr. Gabrieli

Mr. David Gabrieli (BE’14), has been awarded a Josephine de Karman Fellowship, a merit-based award for doctoral students or undergraduates entering their final year.

Mr. Gabrieli is pursuing a major in bioengineering with a minor in mathematics. He currently holds undergraduate research positions in the department of biochemistry and biophysics at the Perelman School of Medicine and in the department of bioengineering at Penn Engineering. He participated in the 2012 Amgen Scholars Summer Research Program at Columbia University and is a 2013 John Thouron Research Prize recipient who will spend this summer studying at Pembroke College, Cambridge University, UK.

The Josephine de Karman Fellowship Trust was founded in 1954 by the late Dr. Theodore Von Karman, world renowned aeronautics expert and teacher and first director of the Guggenheim Aeronautical Laboratory at the California Institute of Technology.

Mr. Gabrieli is among eight North American students awarded Josephine de Karman Fellowships this year and is the second de Karman winner from Penn in two years.
Do You Still Have Money in Your Flexible Spending Account?

If you have an unused balance in your Health Care or Dependent Care Flexible Spending Accounts (FSA), you should keep some important dates in mind. Due to an IRS regulation known as “Use It or Lose It,” if you don’t use the full balance in your account each plan year, you lose that unused money.

Penn’s plan year runs from July 1–June 30 of each year. The money you contribute to the Flexible Spending Accounts during each plan year can only be used for expenses incurred within certain dates (see below). Keep in mind that the expenses must be incurred while you are actively participating in the accounts.

<table>

</tr>
</tbody>
</table>

For more details on Flexible Spending Accounts, including listings of eligible expenses and instructions on how to file a claim, visit www.hr.upenn.edu/myhr/benefits/health/fsa or call the Penn Benefits Center at 1-888-PENNBNB (1-888-736-6236), Monday through Friday, 8 a.m.–6 p.m.

Human Resources: Upcoming Programs

Professional and Personal Development

Improve your skills and get ahead in your career by taking advantage of the many developmental opportunities provided by Human Resources. You can register for programs by visiting knowledge@upenn.edu or by contacting Learning and Education at (215) 898-3400.

Inspiring and Engaging Employees Through Storytelling; June 4; 11 a.m.–noon; free. Stories are a powerful tool for connecting with people on an emotional level. But did you know stories can also have a powerful impact on workplace productivity? Discover how to motivate your colleagues using the art of storytelling. You’ll learn how stories can change attitudes and behavior and help people feel like they’re part of the larger mission at Penn.

Preparing to Retire within the Next Few Years; June 11; 11 a.m.–noon; free. Retiring from Penn has plenty of perks. But it takes careful preparation, and you may have some questions about your options. Will I be eligible for medical benefits? What’s the Rule of 75? What benefits are available to me when I retire? This workshop will give you answers to these questions and more. You’ll also get an overview of Social Security and Medicare.

Planning for Retirement Early in Your Career; June 18; noon–1 p.m.; free. It’s never too soon to start planning your financial future. Even if retirement is years away, now’s the time to prepare. Come learn about the many resources at Penn to help you save for retirement. You’ll get an overview of the University’s retirement plans and how you can use them to build your nest egg. You’ll also learn about other financial planning resources at Penn to help you on the road to retirement.

Mastering Time and Task Management; June 20; 1–4 p.m.; $75. Discover the secrets to being more effective and productive at work. You’ll learn how to plan your day, prioritize tasks, and say “no” to nonessential tasks. We’ll also show you how to delegate, limit distractions and manage multiple tasks like a pro.

Career Focus Brown Bag: Developing Your Professional Presence and Image; June 26; 1–2 p.m.; free. Professional presence is critical to moving forward in your career. But what does it mean to be professional? Come find out at this workshop. We’ll show you how your presence—how you look, act and sound—contributes to your sense of professionalism. You’ll learn how to best communicate your professional self to advance your career.

Brown Bag Matinee: Accountability That Works!; July 9; noon–1 p.m.; free. Take charge of your actions and find out what it takes to get the results you’re looking for. Join us for an engaging video and discussion that’ll teach you what it means to be responsible, empowered and accountable in the workplace.

Healthy Summer Living Workshop Series

It’s summertime, and the living is—healthy! Join us for a workshop series this July that will show you how to have fun and be well this season. Whether you’re hitting the beach, taking a vacation, or planning a backyard barbecue, get summertime tips on how to enjoy yourself the healthy way.

These free workshops are sponsored by Human Resources. For complete details and to register, visit www.hr.upenn.edu/myhr/registration and choose Health Promotions from the Browse by Category section. Or contact Human Resources at (215) 898-5116 or vysar@upenn.edu Bike Safety; July 10; noon–1 p.m.; free. Bik ing is a great way to exercise and explore when you’re traveling for summer vacation. But before you go for a ride in unfamiliar territory, you need to be smart and stay safe. This workshop will cover the ins and outs of bike safety when you’re cruising on two wheels in a new place. You’ll learn how to find bike rental shops, choose the right bike and helmet, and what type of clothing to wear when you ride. We’ll also tell you what to bring on a bike ride, how to secure your bike when you park it, and more. This workshop will be led by the Bike Coalition of Philadelphia.

Exercising on the Fly; July 31; noon–1 p.m.; free. Vacation is a great time to relax and reener gize. But you don’t have to put exercise on the back burner when you leave town. Come learn the secrets of staying fit while you travel. You’ll get tips on how to stay motivated and maintain your fitness routine no matter where you go. You’ll learn what it takes to adapt your exercise plans to a new climate—like how to stay fit in a hot, humid place or how to bring your indoor routine outside—and how to keep up with exercise when your normal routine changes. This workshop will be led by Raina Vyas, Health Promotion Specialist in Penn Human Resources.

—Division of Human Resources
Penn Parking Services Aligns Rates With Fiscal Year

Effective July 1, 2013, Penn Parking Services will align its parking rates with the University’s fiscal year. Previously the annual prices were linked to the start of the academic calendar.

The following FY14 rates apply to faculty and staff of the University and the University of Pennsylvania Health System (UPHS). These rate changes will be implemented with the July payroll schedule.

¹ Rates are based on the permit holder’s payroll deduction.
² Prime Rate adjustments apply to these permit types.
³ Pennsylvania Law and the Philadelphia Traffic Code prohibit motor vehicles from driving or parking on sidewalks. Penn’s Division of Public Safety reminds drivers that not only is this behavior illegal, it poses a safety hazard to those working within the buildings as well as to pedestrians using sidewalks.

Sustainable Commuting Options

If you wish to reduce your commuting costs, Penn offers a wide array of options. As part of the Sustainable Transportation Initiative, a contributing effort of the Green Campus Partnership, Penn Parking Services provides the following alternatives to driving alone to campus:

- **Transit Cost-savings Program**: Eligible faculty and staff can sign up to make pre-tax contributions and receive discounted and subsidized SEPTA monthly passes, subsidized PATCO Freedom Card contributions, subsidized New Jersey Transit fare media, as well as a pre-paid debit card to purchase SEPTA tokens and Amtrak tickets;
- **Pre-tax Commuter Parking at Transit Stations**: Eligible faculty and staff can sign up to make pre-tax contributions and to receive a subsidy to pay for parking at transit park and ride locations operated by SEPTA and PATCO;
- **Vanpool Development and Support**: Vanpools are groups of 7-15 commuters who share the costs for a leased van. Vanpools at Penn are supported with free parking and startup funding. Vanpools are operated in partnership with vRide. Eligible faculty and staff can sign up to make pre-tax contributions and to receive a subsidy to pay for vanpool costs;
- **Carpool Parking Discounts**: Qualifying carpools may receive parking discounts up to 75% via a pre-tax payroll deduction depending on the size of their carpool group; and
- **Occasional Parking Discounts**: Participants in transit, carpool or vanpool programs, as well as registered cyclists, can receive discounts, via a pre-tax payroll deduction, on occasional daily parking at the Penn Park lot.

You may learn more about these commuter options by visiting www.upenn.edu/penncommuter

Penn’s Department of Transportation and Parking strives to provide a variety of convenient, safe and affordable options that best accommodate the diverse commuting needs of our campus community as well as the University’s guests and visitors. As we expand and enhance our commuting options in support of the University’s Climate Action Plan, we will continue to support and improve our parking services for all our patrons, recognizing that for some individuals, driving is the only option.

For More Information:

Please contact Penn Parking Services if you have questions or would like additional information. You may do so visiting www.upenn.edu/parking by emailing us at parking@upenn.edu or visiting the Penn Parking Office, Suite 447A, 3401 Walnut Street. Business hours are Monday through Friday, 8:30 a.m. to 5 p.m.

Division of Business Services

Enjoy a lovely evening under the stars in Morris Arboretum’s wold-class rose garden at the annual Moonlight & Roses fundraising gala on Friday, June 7. The gala begins at 6 p.m. For more information or to request an invitation, contact Karen McGinley at (215) 247-5777, ext 418 or mcginley@exchangeupenn.edu

ALMANAC May 21, 2013

One Step Ahead

Security & Privacy Made Simple

Another tip in a series provided by the Offices of Information Systems & Computing and Audit, Compliance & Privacy.

Protecting Yourself from Rogue AntiVirus Warning Scams

You’re cruising the Internet when a window titled “Win7 Internet Security 2012” pops up warning you of several viruses on your computer. Another official looking window indicates your AntiVirus (AV) software is not enabled and you’re encouraged to purchase the AV software that detected the “infection.”

Sound familiar? Unfortunately, these types of scams, designed to scare you into buying and installing fake antivirus products, are all too common. If you fall for this, not only will you waste your money on a bogus product, you may also be putting your data and your computer at risk of an actual virus.

We recommend the following:

1. Take steps to stop these rogue AV programs from ever getting to your computer.
   a. Ensure your computer’s operating system software is set to automatically download and install security fixes.
   b. Make sure your operating system’s firewall is turned on.
   c. Install Penn’s supported AV Software, Symantec Endpoint Protection (SEP). It’s free—for both your work and personal machines—and it guards your computer against viruses and malware. You can download it at: www.upenn.edu/computing/product/

2. Know how to differentiate an illegitimate antivirus program from a legitimate one. Many fake AV scans will send repeated messages for additional payments to stay up to date. With SEP for example, once you install the software, it automatically updates, without any need for payment.

3. In the event you find your machine is infected, contact your Local Support Provider (LSP). Your LSP may use Windows Defender or another reputable malware removal tool like Malwarebytes to scan for and remove rogue software.

Rogue AV Software can be a nuisance, a waste, and in some cases dangerous to your computer and your data. It only takes a few simple steps to stay safe. Stay One Step Ahead as you navigate the information super highway.

For additional tips, see the One Step Ahead link on the Information Security website: www.upenn.edu/computing/security/
The Division of Public Safety is committed to enhancing the quality of life for the campus community by integrating the best practices of public and private policing with state-of-the-art technology. A critical component of a comprehensive security plan using state-of-the-art technology is Closed Circuit Television (CCTV).

As prescribed by the University Policy “Closed Circuit Television Monitoring and Recording of Public Areas for Safety and Security Purposes,” the locations of all outside CCTV cameras monitored by Public Safety are to be published semi-annually in Almanac. The locations and descriptions of these cameras can also be found at the Division of Public Safety website, www.publicsafety.upenn.edu/TEC/closed-circuit-television-cctv/ The following existing cameras meet those criteria:

The University of Pennsylvania Police Department
Community Crime Report

**About the Crime Report:** Below are all Crimes Against Persons and Crimes Against Society from the campus report for May 6-12, 2013. Also reported were 15 Crimes Against Property (9 thefts, 2 narcotics violations, 1 act of vandalism, 1 auto theft, and 2 other offenses). Full reports are available at: www.upenn.edu/almanac/volumes/v433/crime/report.html. Prior week’s reports are also online. — Ed.

This summary is prepared by the Division of Public Safety and includes all criminal incidents reported and made known to the University Department between the dates of May 6-12, 2013. The University Police actively patrol from Market Street to Baltimore Avenue and from the Schuylkill River to 43rd Street in conjunction with the Philadelphia Police. In this effort to provide you with a thorough and accurate report on public safety concerns, we hope that your increased awareness will lessen the opportunity for crime. For any concerns or suggestions regarding this report, please call the Division of Public Safety at (215) 898-4482.

The special sounds of celebration were heard throughout Penn’s 257th Commencement: the traditional strains of the bagpipers and the rhythmic beats of the Penn Band that accompanied the 2013 graduates along Locust Walk to Franklin Field where the enthusiastic applause could be heard—seen; the soothing sound of Chaplain Charles (Chaz) Howard’s invocation and dismissal (below) the stirring sounds of the National Anthem, sung by Tanvir Srinivasa Gopal, C’13 (below right) and the Penn standard—The Red and Blue—sung by the Penn Glee Club (lower right). See the supplement in this issue for the Baccalaureate and Commencement speeches and more photographs.
