A Message to the Penn Community on the Fiscal Year 2021 Budget

June 16, 2020

As we approach the final weeks of the current fiscal year, we are writing to update you on the financial challenges presented by COVID-19. Our principal goal is to provide transparency into the fiscal realities and uncertainties we must confront as a community. Last week, the Board of Trustees approved the operating budgets and capital plans for Fiscal Year 2021. We write today to share a summary of the financial information provided to the Board of Trustees.

The University is forecasting a budget deficit of $91 million for Fiscal Year 2021. The deficit stems from several revenue uncertainties including student enrollment and research funding along with reductions in housing occupancy and dining services as well as commercial revenue from our hotels, retail and other support enterprises. Concurrently, we are anticipating increased demand for financial aid due to the economic fall out from the pandemic.

To respond to these challenges, we will need to continue the measures we adopted in the Spring related to compensation, discretionary spending and capital spending. In addition, later this week, we will be asking all administrative centers to reduce their budgets by 5%. Schools are also being asked to reduce unrestricted expenditures.

In considering ways to reduce discretionary spending, we are advising leadership to first focus on current expense (i.e., travel, meals, supplies and professional services.) We want to exhaust those possibilities prior to consideration of reductions to our workforce.

Over the past few months, we have received a number of excellent questions regarding our financial status. We are sharing responses to those questions with you, as well as anticipating other questions that members of the community may have in the FAQ below.

Looking Ahead

The talent, dedication, hard work and collaborative spirit of our Penn community of faculty, researchers, staff and alumni make us an eminent national and global university. The critical steps we take right now are necessary to sustain our mission of world-class teaching, research, clinical care and service to society. Keeping Penn’s core mission front and center is especially crucial as the pandemic has reinforced the vital role of universities and academic-based medical centers such as Penn in our modern world. As the pandemic poses a set of formidable challenges to all colleges and universities, our strong and collaborative Penn community will continue to rise to meet this moment.

Please stay safe, and we will look forward to providing future updates.

(continued on page 8)

Beth Winkelstein: Deputy Provost

Provost Wendell Pritchett announced the appointment of Beth Winkelstein as Deputy Provost effective July 1. “Beth Winkelstein has become one of our most essential leaders of teaching, learning and student life, since she began her tenure as Vice Provost for Education five years ago,” said Provost Pritchett. “Her insight and energy enhance every part of our campus. She leads both undergraduate and graduate education, collaborating with deans, faculty leaders and the Office of the Vice Provost for University Life, as well as the Council of Undergraduate Deans, Council of Graduate Deans, Graduate Council of the Faculties and Council of Professional Master’s Degree Deans.

“As Deputy Provost, she will continue this invaluable work while working closely with me to better integrate and expand our educational initiatives,” continued Provost Pritchett, “especially by incorporating new technologies, new ways of teaching and additional supports for faculty and students that advance our core priorities of innovation, impact and inclusion. As we enter this new and challenging phase of Penn history, Beth is the perfect person to help us chart the landscape ahead.”

A former Penn undergraduate, Dr. Winkelstein has been a dynamic leader of initiatives to enhance undergraduate student life, especially the new Penn First Plus program, which provides targeted support for first-generation and low-income students, and the dedicated Second-Year Experience, which offers enhanced programs for second-year students to accompany the new Second-Year housing requirement. She has at the same time been a vital advocate for Penn’s graduate and professional students, overseeing the Graduate Student Center and Family Center, while advancing a series of initiatives to improve every aspect of support for students’ academic progress, professional advancement and work-life balance. Her leadership spans such key areas as College Houses and Academic Services, New Student Orientation, the Center for Undergraduate Research and Fellowships, and the Office of Student Conduct. And that leadership has been especially critical for the Online Learning Initiative and the Center for Teaching and Learning, in these recent months, when their work has become central to Penn’s educational efforts.

Dr. Winkelstein’s leadership is based in her deep knowledge of and appreciation for this University, as well as her own scholarly and research distinction. She has taught in the bioengineering department of SEAS since 2002, becoming in that time one of the world’s leading innovators in research on new treatments for spine and other joint injuries. Appointed two years ago as Eduardo D. Gluskin President’s Distinguished Professor, she continues to lead her pioneering Spine Pain Research Lab, mentor students and postdocs, and serve as co-editor of the Journal of Biomechanical Engineering. Among her many professional honors, she is a Fellow of the Biomedical Engineering Society and the American Society of Mechanical Engineers and was elected to the American Institute for Medical and Biological Engineering and the World Council of Biomechanics.

Dr. Winkelstein earned a PhD in bioengineering from Duke University and a BSE cum laude in bioengineering from Penn as a Benjamin Franklin Scholar.
Deaths

Gunnill Sjöberg, SAS

Gunnill Sjöberg, former lecturer in the Germanic languages and literatures department in Penn’s School of Arts and Sciences, died in early June at a nursing home in Uppsala, Sweden. She was 88.

Mrs. Sjöberg was a native of Sweden. She joined the faculty at Penn in 1967. She represented the Scandinavian section of the department of Germanic languages and literatures for many years, teaching courses on Swedish language, literature and film. She was promoted to senior lecturer in 1984 and was honored in 1995 by Richard R. Beeman, associate dean of the School of Arts and Sciences, and Horst S. Daemmrich, department chair, for her superior teaching. Mrs. Sjöberg was instrumental in establishing the Amandus Johnson Prize at Penn, which is still being bestowed to the most deserving student for travel to study in Sweden. She also served on the University Council from 1983 to 1986.

Mrs. Sjöberg’s husband, Ake Sjöberg, was Emeritus Clark Research Professor of Assyriology in the department of Near Eastern languages and civilizations and emeritus curator of the Babylonian section of the Penn Museum (Almanac August 26, 2014). They both retired from Penn in 1996 and returned to Sweden, where they remained for the remainder of both their lives.

To Report A Death

Almanac appreciates being informed of the deaths of current and former faculty and staff members, students and other members of the University community. Call (215) 898-5274 or email almanac@upenn.edu

However, notices of alumni deaths should be directed to the Alumni Records Office at Suite 300, 2929 Walnut St., (215) 898-8136 or email record@ben.dev.upenn.edu

Policy on Amending Thesis/Dissertation After Final Submission

Once approved by the thesis/dissertation committee and published in the University’s ScholarlyCommons, all thesis/dissertation content becomes part of the formal record. Only in rare situations in which there is a significant chance of harm (to readers following the dissertation’s recommendations and/or to research participants) will requests to amend the submitted thesis/dissertation be considered. Students and committees should follow all IRB guidance and review thesis/dissertation content carefully before submission to avoid this scenario whenever possible.

Any request to amend the dissertation must be approved by the thesis/dissertation advisor (if still on the Penn faculty) and Graduate Group Chair. Once approved, the request should be submitted by the Graduate Group Chair, along with a rationale for consideration, to the Vice Provost for Education for final approval.

Two types of amendments will be considered: (1) the removal or modification of classified, proprietary or confidential information, or (2) the addition of an errata sheet to note and correct significant errors in content. If the purpose is to remove classified, proprietary or confidential information, the author should fill out the page substitution request form. If the purpose is to note and correct significant errors in content, the author should create an errata sheet using the errata sheet form and instructions.
A Plan of Action: Penn Athletics’ First Steps to Combat Racism
June 12, 2020

Earlier this week, the division’s senior administrators and I met virtually with approximately 30 Black student-athletes at Penn in an honest, collaborative and impactful dialog regarding their experience as a student-athlete. As a Division, we admit we have not done enough to take an active stand against racism and are firmly committed to becoming an organization that is truly anti-racist.

We are proud of our student-athletes, coaches and staff who have used their voices and actions to stand up against the injustices that have plagued our society for far too long. As a Division, we believe we can be a catalyst for change locally, in the Ivy League and nationally. To create a society that treats everyone equally, the change begins in our homes, in our communities, in Weightman Hall and in the Pottruck Center, one conversation at a time.

Penn Athletics is forming a task force comprised of student-athletes, coaches and staff to continue the fight against racism and systemic oppression of Black Americans. This task force will be charged with listening to our Black community and its allies, creating a plan and implementing change in 2020-2021 and beyond.

Our initial actions, which were identified in collaboration with our Black student-athletes are below:
• Expand implicit bias and microaggression training to all coaches, staff and student-athletes.
• Identify a physical and inclusive gathering place for Black student-athletes and allies within the Penn Athletics footprint to come together on a regular basis.
• Assess how Penn Athletics can better support Black student-athletes in their academic pursuits.
• Create a Diversity and Inclusion position on the Student-Athlete Advisory Committee (SAAC).
• Appoint a Chief Diversity Officer for Penn Athletics and surround that individual with resources to coordinate Penn Athletics’ efforts against racism.
• Continue efforts to hire a diverse athletics administration and coaching staff, and enhance the diversity of sports boards and our Athletics Board of Overseers.
• Grow our current civic engagement programming with a focus on improving the social, athletic and educational experience of Black and Brown youth in the West Philadelphia community.
• Identify and promote the historical impact of our Black alumni student-athletes and Penn Athletics Hall of Famers.
• Use our collective voices to positively impact the University, the Ivy League and the NCAA in areas related to social justice.
• I continue to be proud to stand with you as the Director of Athletics. This change will not happen overnight; however, we are committed to listening, learning and acting in the weeks, months and years ahead.

—M. Grace Calhoun, T. Gibbs Kane, Jr. W’69 Director of Athletics and Recreation

OF RECORD

FY2021 Postdoctoral Stipend Policy
The Office of the Vice Provost for Research, in consultation with the Provost’s Council on Research, is responsible for setting minimum stipend levels for postdoctoral trainees across the University. In recent years, the University has adopted the National Research Service Award (NRA) stipend scale for all stipends on campus (see https://grants.nih.gov/grants/guide/notice-files/NOT-OD-20-070.html). Reaching this goal was a noteworthy achievement, principally because it ensured equal treatment for postdoctoral compensation across the University.

For FY2021, as a consequence of the severe impact of the COVID-19 pandemic on research operations, some flexibility is necessary. Schools that choose to follow the NRSA guidelines will be permitted to do so. For all other Schools, the use of the NRSA stipend levels to the maximum extent possible is recommended but is not required this year. Postdocs who are supported by NRSA individual fellowships or institutional training grants should have their stipends set at the appropriate level as determined by the number of years of relevant postdoctoral experience. For continuing postdocs, Schools electing not to follow the NRSA guidelines should follow the same procedure for stipend increases as they use for comparable employees, e.g. Research Associates. For first year postdocs who are not funded by NRSA or training grants the minimum stipend level will be set at the year-0 NRSA stipend from FY2020 [$50,004].

Penn investigators are also expected to comply with any postdoctoral stipend guidelines promulgated by their sponsors, if these sponsor-specified guidelines exceed the Penn minimum stipend levels.

Note: Stipends should be adjusted upwards at the time of the annual postdoctoral reappointment, at the time of the annual grant renewal or at the beginning of the NIH fiscal year (October 1).

—Dawn Bonnell, Vice Provost for Research

The Penn Libraries Stands Against Racism
I write to you at what has been a very difficult time for all of us—but particularly for the African American members of our community. The tragic deaths of George Floyd, Breonna Taylor, and Ahmaud Arbery, are evidence of the hatred, ignorance and inequities that have blighted society for the last four centuries. Our nation mourns their lives. We grieve the complacency and the systemic racism to blame for their untimely deaths, as well as the deaths of so many other Black Americans. And we resolve to contribute to ensuring a just future for communities of color.

This pivotal moment calls for an inventory of institutional priorities and individual commitments. In that spirit, the Penn Libraries staff convened earlier this month to begin discussions about what we can do to advance social justice on campus, in our neighborhoods and across our nation. What can we contribute to local and national discussions about dismantling systemic inequities in our society? How can we use our collective strengths, skills and resources to truly make a difference?

Our meeting, the first of what will be many on this subject, resulted in several resolutions. The Penn Libraries will build and share resources that highlight work by Black writers on antilyph. Moving forward, we will place stronger emphasis on our collections and outreach around the work of people of color, such as the archives of Marian Anderson and Ashley Bryan and the Joanna Banks Fiction Collection. We will continue our work on projects such as the Diversity in the Stacks initiative, which builds library collections that represent and reflect the University’s diverse population. We will provide new ways for staff to participate in the Group on Library Diversity (GOLD) and seek leadership roles in other equity, diversity and inclusion initiatives on campus.

On June 3, in memory of Breonna Taylor, the Penn Libraries and the Group on Library Diversity (GOLD) will host a LinkedIn Live Event: June 24, a $2 million fund “to seed impactful projects, grounded in outstanding Penn research, that will offer new ideas to enhance the quality of life for members of our community now and in the future.” The Penn Libraries joins the University in its commitment to achieving educational equity and ensuring equal access to knowledge for all members of our community.

Libraries aim to serve every member of society. We reaffirm our commitment, from the depths of our hearts, to create a living and learning environment that is truly safe and welcoming for all.

—Constantia Constantinou, H. Carton Rogers III Vice Provost and Director of Penn Libraries, University of Pennsylvania

The Business of Sports Without Fans
LinkedIn Live Event: June 24

The panel discussion, The Business of Sports Without Fans, hosted on The Wharton School’s LinkedIn (www.linkedin.com/school/the-wharton-school) and Twitter (https://twitter.com/wharton) accounts, will be held on Wednesday, June 24 at noon.

The live discussion will focus on the future of sports in a post-pandemic world and how leagues are pivoting their plans and business models to move forward without fans in attendance. Panelists will discuss the challenges and new opportunities sports business leaders will face as they navigate a new world of “sports without fans.”

To RSVP, visit https://www.linkedin.com/events/6678358362402406400/
Nia Akins: Indoor Track & Field All-American

Nia Akins, one of the greatest athletes in Penn’s history, was recently named Indoor Track & Field All-American by the US Track & Field and Cross Country Coaches Association. Ms. Akins, who graduated in May, was off to a stellar senior track & field season before it was cut short by the coronavirus. Competing at Boston University’s David Hemery Valentine Invitational in February, she ran the second-fastest indoor 800m in NCAA history, placing first with a time of 2:00.71.

She was the national runner-up in 2019 in the indoor and outdoor 800m. Big things were expected at this year’s indoor and outdoor NCAA Championships, which were canceled because of COVID-19.

In the Penn record books, she is first all-time in the indoor 800m; first in the indoor 4x800m relay; first in the outdoor 4x800m relay; first in the indoor 1500m; first in the outdoor 4x400m relay; first in the outdoor DMR; first in the indoor 800m; and first in the indoor 1000m.

At last year’s Penn Relays, Ms. Akins was named College Athlete of the Meet, making her the first female to win both the men’s and women’s, male or female, to win the award and only the fourth overall in Ivy League history. Currently, she is training for the Olympics.

James Primosch: Virgil Thomson Award

James Primosch, professor of music in Penn’s School of Arts and Sciences, received the 2020 Virgil Thomson Award in Vocal Music. The award, endowed by the Virgil Thomson Foundation and administered by the American Academy of Arts and Letters, recognizes an American composer of vocal works and includes a prize of $40,000.

Dr. Primosch’s instrumental, vocal, and electronic works have been performed throughout the US and in Europe by such ensembles as the Los Angeles Philharmonic, the St. Paul Chamber Orchestra, Chagall New Music, the New York New Music Ensemble and the 21st Century Consort. Commissioned works by Dr. Primosch have been premiered by the Chicago Symphony, the Albany Symphony, Speculum Musicae, the Cantata Singers and pianist Lambert Orkis. He recently completed commissions from the Philadelphia Chamber Music Society and Lyric Fest, and two CDs featuring his vocal music were released this spring. His previous honors include a grant from the National Endowment for the Arts and a Guggenheim Fellowship.

Joseph Earl Thomas: Chautauqua Janus Prize

Joseph Earl Thomas, a doctoral student in the department of English in Penn’s School of Arts and Sciences, was awarded the 2020 Chautauqua Janus Prize. First awarded in 2018, the Chautauqua Janus Prize celebrates one emerg- ing writer’s single work of short fiction or nonfiction for daring formal and aesthetic innovations that upset and reorder literary conventions, historical narratives and readers’ imaginations. Mr. Thomas won for his piece, Reality Marble, a memoir that draws on the natural world and the genres of fantasy and science fiction.

“There’s this almost incommunicable subjectivity in childhood that I’m trying to take seriously as a life of thinking in itself that’s very separate from me, rather than a stepping stone toward a better, more stoic and individuated self with an empathetic lure to gaze back on,” Mr. Thomas said. “Reality Marble, using the coming-of-age genre, tries to think about what it’s like to never quite get there, because I certainly never thought I would and plenty of us, every day, don’t.”

Mr. Thomas receives an award of $5,000 and will present a public lecture and reading at a celebratory event as part of Chautauqua Institution’s online assembly season this summer. His writing, which has appeared or is forthcoming in The Offing, and The Kenyon Review, will also appear in a future issue of the literary journal, Chautauqua.

My Virtual Veterinarian: Startup Challenge Grand Prize

Penn Wharton Entrepreneurship recently announced the winner of the fourth annual Startup Challenge, sponsored by Eric Aroesty (C’92): My Virtual Veterinarian, founded by Felicity Johnson (WG’20) and advised by John Hurst (WG’20, V’20). The Perlman Grand Prize includes $30,000 plus $15,000 in legal, accounting and strategy services.

A virtual veterinary portal for pet owners, My Virtual Veterinarian makes it possible for pets to receive the care they need, when they need it. Due to the global health crisis surrounding COVID-19, Penn Wharton Entrepreneurship held the competition in a virtual setting on May 1 and 2, following the leadership of the University of Pennsylvania and The Wharton School.

My Virtual Veterinarian connects pet owners with veterinarians for video and chat appointments, providing a unique solution during the COVID-19 pandemic. Ms. Johnson founded the company after experiencing time-consuming medical visits when her cat Tiffany was diagnosed with cancer. Through the My Virtual Veterinarian iOS app, pet owners can access their primary veterinarian, or find a different veterinarian who is available for virtual veterinary appointments and schedule a convenient appointment time. This flexibility extends to the veterinarians, who can schedule appointments that fit their schedule, avoid unnecessary office visits and access new customers.

Penn: #8 National QS Ranking

University of Pennsylvania was recently ranked #1 in Pennsylvania, #8 nationally and #15 in the world in the QS World University Rankings portfolio.

The list of the top 300 American universities offers a unique lens on the extent to which the nation’s universities are cultivating (a) equitable access, (b) diversity, and (c) creditworthy employability outcomes. The ranking was compiled using a combination of bespoke proprietary data and verifiable institutional data, such as the proportion of students receiving Pell Grants, the school’s gender pay gap and its average alumni salary after 10 years.

Mark Wolff: William J. Gies Award

Penn Dental Medicine Dean Mark S. Wolff has been recognized for his research by the International Association for Dental Research (IADR) and American Association for Dental Research (AADR) as a recipient of the 2020 IADR/AADR William J. Gies Award for clinical research. The Gies Awards are presented annually in three categories—biological research, biomaterials and bioengineering research, and clinical research—for the best papers published in the IADR/AADR’s Journal of Dental Research. The Gies Awards are named for William J. Gies, the journal’s founder.

This systematic review and network meta-analysis summarizes the available evidence on nonrestorative caries treatments (not using the drill) for arresting or reversing noncavitated (early tooth decay) and cavitated carious lesions (cavities) on primary and permanent teeth; it also provides a review of the evidence for and adverse events seen with varied treatment modalities. It provides clinicians with clinic-ready guidance on how to best treat their patients on a daily basis.

While preventing the onset of caries is the ultimate goal of a caries management plan, our review provides important guidelines for nonrestorative management of carious lesions when disease is present,” said Dean Wolff.

Aaron Wunsch: Peterson Fellowship

Associate Professor Aaron Wunsch of the Graduate Program in Historic Preservation in Penn’s Weitzman School of Design has been awarded the Peterson Fellowship from The Athenaeum of Philadelphia in support of his work on the Pennsylvania’s Laurel Hill Cemetery. The fellowship supports projects related to the study, recording and preservation of early American architecture and building technology.
Penn Dental Medicine student Grace Huang (D’21) has been recognized for her research, taking first place in the junior category of the 2020 American Association for Dental Research (AADR) Hatton Competition. The annual competition awards prizes in three categories (junior, senior, and post-doctoral) with winners selected from the top abstracts submitted nationwide.

Active in research throughout her time at Penn Dental Medicine, Ms. Huang’s winning project was titled “Cytotoxic Th1 Distinctive Toxin (Cytotoxin) Induces Macrophages to Release ProInflammatory Mediators,” which she conducted with mentor Bruce Shenker, professor in the department of basic and translational sciences.

As a 2019 recipient of a Penn Dental Medicine AADR Travel Award for this project, Ms. Huang would have attended this year’s IADR/AADR/CADR annual meeting in March to present her work. With the meeting cancelled due to the coronavirus pandemic, the AADR Hatton Competition finalists were asked to submit slide and video presentations and were judged on their submission. Judging criteria included originality and design of the investigation, Soundness of the data produced, suitability of the methods of analysis used, scientific value of the work, quality of the oral presentation and demonstration of mastery of the subject.

Aurea Simon-Soro, Yuan Liu: IADR Honors

The work of two Penn Dental Medicine postgraduate researchers has been recognized by the International Association for Dental Research (IADR): Aurea Simon-Soro was the recipient of the 2020 IADR Oral Health Research Young Investigators Travel Award, and Yuan Liu (GD’19) was honored with the 2020 IADR Women in Science Promising Talent Award.

As a 2019 recipient of a Penn Dental Medicine AADR Travel Award for her research, Drs. Liu and Simon-Soro were both previously recognized for their research by the American Association for Dental Research (AADR) and the IADR. Dr. Liu was awarded second place (post-doctoral category) in the 2018 AADR Hatton Awards and Dr. Simon-Soro was the 2019 recipient of the IADR Women in Science Award for Distinguished Research.

Penn Libraries Kislak Center: ACRL Award

The University of Pennsylvania Libraries Kislak Center for Special Collections, Rare Books and Manuscripts has been honored with an RBMS Katharine Kyes Leab and Daniel J. Leab Exhibition Catalogue Award from the Association of College and Research Libraries (ACRL). The award was granted for the Kislak Center’s publication Wise Men Fished Here: A Centennial Exhibition in Honor of the Gotham Book Mart, 1920-2020.

“The creative and dynamic design coupled with the comprehensive content of this catalogue contribute to the stand-out character of Wise Men Fished Here,” read a statement from the Leab Awards Committee. “The under-told story of the woman bookseller at the center of the exhibition, and her influence on the arc of modernism, has both high scholarly value and broad appeal to a general public.”

The ACRL’s annual awards honor the best in academic and research librarianship. More information, in addition to a full list of 2020 ACRL award recipients, is available online: http://www.ala.org/acrl/awards/awardwinners/

Penn Athletics Marketing: NACMA Silver

The National Association of Collegiate Marketing Administrators (NACMA) announced this week that the Penn Athletics Marketing Department was awarded a Silver in the Multi-Platform Branding Campaign category for their work on the 125 Years of Franklin Field campaign.

2019 marked 125 years since the opening of historic Franklin Field. From January through December, Penn Athletics executed a collaborative campaign to celebrate the history and impact of Franklin Field. It began with the unveiling of a logo, announcement of corporate partners, launching a landing page and monthly posts on social media. Throughout the year a four-part video series supported the celebration and told the story of Franklin Field. Special events including the “Franklin Field Night” were featured on frisees, stickers, a commemorative key chain and lead the theme for the 2019 Penn Football schedule poster.

33rd Street was lined with Franklin Field 125 street banners. Inside the stadium one could see signage on the field, a season-long field stencil in the end zones, and Weightman Hall marking the anniversary. Plus, a special art installation was debuted on the concourse of Franklin Field and took onlookers through a visual timeline of the stadium’s evolution at the University of Pennsylvania and the Philadelphia sports scene. The theme carried throughout football with in-game trivia, commemorative season ticket stock and digital advertising. The equipment department got into the celebration by adding logos to helmets and uniforms that played in Franklin Field, along with throwback jerseys and helmets for the football team. The uniforms garnered national attention and were featured on the “Gear Up” segment on ESPN.

The NACMA Best of Awards program honors outstanding achievement in marketing and promotions. Awards are presented in 16 categories, with each category divided into three groups based upon school size and conference affiliations to promote fairness. In 2019-2020, approximately 900 entries were submitted through the NACMA community.

Inaugural Cohort of Paideia Fellows

The Stavros Niarchos Foundation (SNF) Paideia Program recently announced the acceptance of 20 students into the inaugural cohort of SNF Paideia Fellows. SNF Paideia Fellows are a select group of undergraduate students committed to developing the knowledge, skills and values needed for effective, ethical, and civil dialogue in a diverse world. Beginning sophomore year, SNF Paideia Fellows integrate wellness, service, citizenship and dialogue through a combination of academic courses, co-curricular events and hands-on leadership experiences. Fellowships encourage and support students’ ability to connect their public roles as community members with their academic and professional lives in healthy, sustainable and fulfilling ways. The SNF Paideia Fellows program creates opportunities for students to practice robust and respectful civil dialogue with others across a wide range of political, social and cultural differences. Fellows also cultivate practices that enable them to make effective contributions to the local, national and global communities of which they are a part.

Following is the inaugural Class of 2023 Paideia Fellows:

Important Updates to Your Flexible Spending Accounts

Do you participate in a Health Care Flexible Spending Account (HCFSA) or Dependent Care Flexible Spending Account (DCFSA)? If so, we have good news for you. Thanks to recent Internal Revenue Service (IRS) regulations, HCFSA and DCFSA participants now have more time to incur expenses and submit claims for reimbursement. Changes have also been made to the rollover limit for HCFSAs.

Penn’s plan year runs from July 1 to June 30. The money you contribute to your FSA during each plan year can only be used for eligible expenses incurred within certain dates. Effective May 12, 2020, those dates have changed, as listed in the chart below.

Additionally, the rollover amount for Health Care FSAs has been increased from $500 to $550 for the current plan year. If you have an unused balance below $550 at the end of the extension (December 31, 2020), that money will be carried over for the 2020-2021 plan year after January 31, 2021. If you have an FSA balance above $550, you will only roll over $550 and forfeit any surplus.

Changing Your Contributions

If you want to increase or decrease the amount you contribute to your FSA each month you can through Workday without declaring a specific life event. You can do this for the remaining pay periods in the current plan year and during the 2020-2021 plan year until December 31, 2020.

Please note, once you change your contribution you will only be able to incur claims for the new contribution amount based on the effective date of your change. For example, if you increase your goal from $1,500 to $2,000 on June 25, the additional $500 can only be used for claims incurred from June 25, 2020 to December 31, 2020.

If the amount you have contributed to your FSA has already been deducted from your pay, you will not be able to get a refund. For step-by-step instructions on how to make changes to your FSA contributions, review the Self-Service: 2020-Special Election Event tip sheet at www.workday.upenn.edu/docs/default-source/tp-sheets/self-service-2020-special-election-event.pdf

A New Eligible Expense

As a result of the recently passed Coronavirus Aid, Relief, and Economic Security (CARES) Act, you can now use HCFSA dollars to purchase Over the Counter (OTC) medications without a prescription, and feminine care products. Examples of OTC medications include aspirin, allergy medication, band-aids, ace bandages, and knee braces.

For more information about FSAs, visit the Flexible Spending Accounts webpage at www.hr.upenn.edu/PennHR/benefits-pay/health-life-and-fsa/health/flexible-spending-accounts/claiming-reimbursement-from-a-flexible-spending-account

—Division of Human Resources

Penn Rising Senior Summer Academy for Rising High School Students

Penn, in response to the unprecedented disruptions to the delivery of education and college access supports during the COVID-19 pandemic, is offering the PennRSSA: a free program open to all 14,000+ rising seniors attending Philadelphia public and charter high schools in these extraordinary times.

The initiative has two online components: a session on how to apply to college, and a four-week program called the PennRSSA Academy. Valarie Swain-Cade McCoullum, Penn vice provost for student engagement, said PennRSSA instructors offer courses on topics such as applied economics, writing for different audiences, career exploration and college applications.

“They take students through the whole process of beginning to think about where they might like to be geographically for their work, how they think about what’s important to them in college,” she said.

Academy classes run July 6-31. Dr. McCoullum said 600 students have been accepted so far, and there is room for 2,500. Students who finish the course can earn one credit toward their high school transcripts.

Morris Arboretum Welcomes Visitors Back to the Garden: Advance Tickets Required

Morris Arboretum is excited to welcome visitors back to enjoy its open spaces and beautiful gardens. The staff is working diligently to provide a safe, fun and relaxing experience for all visitors in conformance with CDC, State, local and University of Pennsylvania guidelines.

Morris Arboretum has made several changes with visitors’ well-being in mind:

• Advance tickets are required for all visitors.
• Members visit for free but must reserve a time.
• Tickets are available at morrisarb.org/tickets
• The City of Philadelphia requires face coverings for all visitors age 2 years and older.
• One-way circulation on paths is necessary to facilitate social distancing
• The Visitor Center, the Shop and Compton Café are temporarily closed, but picnicking will be permitted in certain areas
• The Garden Railway, Out on a Limb, the Fernery, and the Log Cabin are temporarily closed
• Restrooms are open and sanitized regularly
• Hand-sanitizing stations are located throughout the Arboretum
• Bring your own water and snacks
• Advance tickets slots begin at 10 a.m., with the last ticket reservation at 5 p.m. Visitors may arrive minutes before or no later than 15 minutes after their scheduled time. For more information on ticketing procedures, please visit the FAQs page at morrisarboretum.org.

To prevent overcrowding, everyone visiting the Morris Arboretum must have an advance ticket, including infants and members. Visitors will be asked to present printed tickets or show their tickets on their phones. Guest passes will not be accepted at this time, but expiration dates will be waived for at least a year after the return to normal operations. Library passes cannot be used at this time. PennCards are accepted for the PennCard holder only, but like members, advance tickets are required. ACCESS cards members can reserve tickets at morrisarboretum.org, and must show their cards upon arrival.

The University of Pennsylvania Police Department
Community Crime Report

About the Crime Report: Below are the Crimes Against Persons or Crimes Against Society from the campus report for June 8-14, 2020. Also reported were 5 crimes against property (2 thefts from building, 1 bike theft, 1 fraud and 1 theft other). Full reports are available at: https://almanac.upenn.edu/sections/crimes Prior weeks’ reports are also online. –Edit.

This summary is prepared by the Division of Public Safety and includes all criminal incidents reported and made known to the University Police Department between the dates of June 8-14, 2020. The University Police actively patrol from Market St to Baltimore Avenue and from the Schuylkill River to 43rd St in conjunction with the Philadelphia Police. In this effort to provide you with a thorough and accurate report on public safety concerns, we hope that your increased awareness will lessen the opportunity for crime. For any concerns or suggestions regarding this report, please call the Division of Public Safety at (215) 898-4482.

18th District

Below are the Crimes Against Persons from the 18th District:

- 4 incidents (2 aggravated assaults, 2 domestic assaults) were reported for June 8-14, 2020 by the 18th District covering the Schuylkill River to 49th St & Market Street to Woodland Avenue.

- 1 other incident – Sexual assault.

- 1 (2 aggravated assaults, 2 domestic assaults) were reported for June 8-14, 2020 by the 18th District covering the Frankford Avenue to Woodland Avenue.

- 1 other incident – Assault.

- 1 other incident – Robbery.

18th District

- 4 incidents (2 aggravated assaults, 2 domestic assaults) were reported for June 8-14, 2020 by the 18th District covering the Schuylkill River to 49th St & Market Street to Woodland Avenue.

- 1 other incident – Sexual assault.

- 1 other incident – Assault.

- 1 other incident – Robbery.

- 1 other incident – Theft.

- 1 other incident – Burglary.

- 1 other incident – Fraud.

- 1 other incident – Other.

- 1 other incident – Motor Vehicle Theft.

The University of Pennsylvania’s journal of record, opinion and news is published Tuesdays during the academic year, and as needed during summer and holiday breaks. Its electronic editions on the Internet (accessible through the Penn website) include HTML, Acrobat and mobile versions of the print edition, and interim information may be posted in electronic-only form. Guidelines for readers and contributors are available on request and online.

What has been the financial impact to date on the University?

In March, the threat of COVID-19 shut down both our campus and our city. Undaunted in continuing our missions, we depopulated campus and pivoted to remote learning and work. These actions resulted in an unplanned impact of $47 million in the current fiscal year as we provided eligible financial aid to students with housing and dining rebates and assisted in transportation and relocation costs; returned students from semester abroad programs; invested in technology and infrastructure to facilitate remote learning; provided financial assistance to eligible Penn staff and contracted workers; abated rent for certain tenants within Penn's retail portfolio; made grants to small businesses in West Philadelphia and non-profit agencies across the city; reconfigured labs; and made other investments, large and small, that created a protective public health environment across campus. Simultaneously, we experienced revenue losses from closing retail establishments, performing arts centers, and museums; providing free access to parking garages; and cancelling athletic events and summer camps, among other impacts.

What has been the University’s “unplanned expenses” be offset by other reductions in current expenses?

We are deeply grateful for and impressed by how rapidly all members of the Penn community have responded to our requests to curtail discretionary spending (https://coronavirus.upenn.edu/announcement/message-summer-almanac). We have recently increased the financial aid budget, as students and their families face economic pressure stemming from the negative impact of the pandemic. Student aid is one of our highest priorities, and so our aid budget will be included in this message. In addition, Penn has pivoted to remote learning and work. These actions resulted in an unplanned impact of $47 million in the current fiscal year as we provided eligible financial aid to students with housing and dining rebates and assisted in transportation and relocation costs; returned students from semester abroad programs; invested in technology and infrastructure to facilitate remote learning; provided financial assistance to eligible Penn staff and contracted workers; abated rent for certain tenants within Penn's retail portfolio; made grants to small businesses in West Philadelphia and non-profit agencies across the city; reconfigured labs; and made other investments, large and small, that created a protective public health environment across campus. Simultaneously, we experienced revenue losses from closing retail establishments, performing arts centers, and museums; providing free access to parking garages; and cancelling athletic events and summer camps, among other impacts.

What has been the financial impact to date on Penn Medicine?

The numbers included in this message only address the academic component of the University. As EVP J. Larry Jameson and CEO Kevin Mahoney have shared with Penn Medicine leadership, the COVID-19 pandemic constrained clinical activity, significantly reducing both current and future financial performance at the Health System. There were substantial revenue losses due to decanting of the hospitals in preparation for COVID-19, along with a rise in expenditures for necessary protective equipment. While a recovery plan is underway, the Health System, which provides valuable support to the Perelman School of Medicine, is forecasting margins at half of its historical levels. The Health System will face ongoing financial challenges until clinical activity returns to normal in outpatient and to hospital-based settings and there will likely be reimbursement challenges resulting from the sharp rise in unemployment in the region. Further financial information will be provided to the Penn Medicine community as results are available at the end of this fiscal year and after the first quarter of FY21.

Will Penn achieve a balanced budget in the current fiscal year?

Thanks to the rapid efforts by everyone to reduce expenditures, we expect the deficit to be offset by actions we have taken to finish slightly above breakeven for the year, but below our original budget.

What has been the impact of cost containment measures?

In April, as we planned the budget for FY21, we forecast a substantial deficit. We quickly implemented cost containment strategies, including implementing a freeze on hiring new positions, curtailing merit increases for FY21, slowing planned capital spending, and dramatically reducing travel, entertainment, and discretionary spending. These preemptive actions were taken as we forecasted a $47 million impact from COVID-19. We have also engaged in other revenue-enhancing actions, such as utilities (from reduced occupancy) and other forms of current expense. Yet our single largest cost—compensation—has remained steady, as the vast majority of full and part time employees, as well as most temporary employees, have remained in full pay status. In sum, these expenditure reductions have helped to reduce the blow from the revenue reductions, but there is no windfall resulting from our reduced presence on campus.
